FIRE WIPES OUT BUSINESS BLOCK

U. S. STEAMSHIP SINKS FIRST U-BOAT

U. S. ALLIANCE IS NOT BALFOUR AIM

THOUSANDS SHOT DOWN IN ADVANCE OF BRITISH

Artillery Cuts Furrows Through Solid Ranks of Humanity—Loss of Life Is Enormous

HAIG FORCES CONTINUE BIG DRIVE UNDER FIRE

Russians Destroy Harbor and Demolish Three Big Turkish Cruisers; French Advancing

In pushing the British offensive today General Sir Douglas Haig directed an attack along the three-mile front between the Cote and Scarpe rivers, where further gains have been scored.

South of the Arras battle front General Haig is eating bit by bit into the German lines between Cambrai and St. Quentin. More than 3000 prisoners have been taken.

Along the front of the British battle the battle is confined mainly to the artillery, although the French continue to make progress in local fighting.

FIGHTING HEAVY. PARIS, April 25.—Violent fighting along most of the French front, with gains in the Aisne and Champagne sectors, was announced by the French official statement today.

Between the Somme and the Oise it was calm, the war office said. "The French artillery silencing the Germans. Near La Fere, in the Aisne region, the French progressed southeast of Cerny Lannols, making prisoners."

"Near Havelles and on the plateau Vaucclair, German attacks following heavy bombardment were stopped short."

"In the Champagne, the French are progressing near the hill without a name, capturing guns and prisoners."

LONDON, April 25.—More than three thousand prisoners taken since Monday's resumption of the British drive and further advances, despite bitter opposition from the Germans, were reported in Field Marshal Haig's report today.

"Early this morning in fighting along the front between the Cote and the Scarpe we further progressed and secured our gains," he said. "Our prisoners since Monday are now 3029, including 56 officers."

"At night, east of Havincourt wood, we captured Bihem, northeast of Trescault."

FIGHTING IS FIERCE. Germany was today throwing every available man within reach into the breach which the British troops have hacked on the northernmost pivot of the Wotan line. On a front of nearly nine miles today, from Oppy to around Croissels, the fighting was raging with a ferocity unparalleled since the day of the opening of the war, when allied troops beat back the Germans in their rush toward Paris.

Once again the Germans are using great masses of men, poured with reckless prodigality for human life, into the rents where the stubborn British advance has penetrated. British artillery directed against these massed infantry troops literally tore them to pieces, but in many places along the line the number of men hurled by the German commanders was so great that their pressure literally forced them beyond the barrage fire. Then would come the hand-to-hand fighting of the bitterest sort.

"It was in struggles of this intensity today that the British was still pushing forward, inch by inch and yard by yard. Although the enemy has taken a few places, the general location of the British offensive, the complete mastery of the air obtained by Haig's fliers have prevented the German commanders from spying out various moves of his bringing up troops, and the British smashed the force are still more or less surprised at attacks. Forty German aeroplanes were brought down yesterday, Haig's night report announced."

On the French front the fighting was for the most part confined to artillery combat, according to front despatches today.

LINES ADVANCED. The ferocity of the British attack

RAILROADS SHOW DECREASES IN THEIR EARNINGS

WASHINGTON, April 25.—Railroad earnings, continued to decline during February, according to the report issued today by the Interstate Commerce Commission, while gross revenues for the 187 principal steam railroads of the United States increased approximately \$3,000,000 for February, 1917, compared with February, 1916, operating expenses increased \$23,000,000, making the net income on the roads for February, 1917, but \$43,555,124, compared with \$66,930,311 for February, 1916.

Net earnings of the eastern railroads fell off most sharply, being \$10,468,818 for February, 1917, compared with \$28,221,405 for February, 1916. Southern roads showed an increase of \$11,504,478 for February, 1917, compared with \$12,097,519 for February, 1916, while western roads showed an income of \$21,586,823 for February, 1917, compared with \$24,876,297 for February, 1916.

Conscription Is Scored by Champ Clark

WASHINGTON, April 25.—Opposition to the selective draft reached its climax in the House today, when Speaker Clark took the floor to champion the volunteer army amendment.

Deploping that he could not stand by the President whom he unreservedly declared wrong on the question, the Speaker pleaded that young men be given an opportunity to offer their services voluntarily.

"I protest," he shouted "against having the cur of being a conscript placed upon the men of Missouri. So far as Missourians are concerned, there is precious little difference between a conscript and a convict."

The Speaker made a defense of Congressmen who have stood by the volunteer plan, declaring that the volunteers have done most of the nation's fighting.

Advocates of selective conscription without the volunteer amendment claim a majority of sixty or seventy in the House.

FAVOR ROOSEVELT PLAN. Prominent House leaders who favor Roosevelt's plan to lead a volunteer army immediately to the French trenches, announced they would introduce and fight on the floor for an amendment to the army bill granting the Colones the authority he asks. These men declared they will start their fight probably tomorrow.

How bitter the fight continues to be even after nearly a week's Senate debate was demonstrated this afternoon when Chairman Chamberlain moved to limit debate so it would close tomorrow night, but was not even able to get a vote on the motion.

"The whole defense of our nation awaits this vote," pleaded Chamberlain. "We must realize the importance of this measure."

"If we get a vote by Saturday we'll be doing well," tersely interjected Gallinger, McGumher and Borah insisted on their prerogative to speak on the measure. Chamberlain was forced to withdraw his motion and Reed of Missouri started a verbal fling of any form of conscription.

"The volunteer system is the historic doctrine of the republic," he declared, "and now we are asked to repudiate it."

APPROVE NAVY INCREASE. WASHINGTON, April 25.—The House naval committee this afternoon reported favorably a bill urged by Secretary Daniels to increase the navy from 87,000 to 150,000 men and the marine corps from 17,400 to 30,000 men.

GUARD NOT TO BE FORMED NOW

SACRAMENTO, April 25.—In a statement issued last night, Martin Madsen, secretary of Governor Stephens, said:

"The defense guard is not to be organized at once. It may be formed at all. It is not intended to call the organization into existence unless necessity should arise. If all the militia are called into the federal service the state will be left without

GENERAL RELIEVED OF COMMAND

EL PASO, Texas, April 25.—General Francisco Mirgala, commander of the Northern Mexico military zone, will be relieved of his command because of his failure to crush the Villa movement, according to reports received by a government agent here.

General Joaquin Amaro, commander of the Chihuahua City garrison, will succeed him, it is understood.

MANY ARE IN PERIL FROM EARLY BLAZE

Women Rescued From Flaming Apartment by Former Local Fireman's Quick Work

Hotel, Bank, Store; All in Heap of Ruins; Oakland Trucks Are Sent to Aid Concord

CONCORD, April 25.—Fire of undetermined origin laid waste Concord's most important business block this morning, bringing about the destruction of the postoffice, mercantile establishments, a bank and the leading hotel. Loss is estimated at \$300,000. Despite the fact that the hospital and apartments in office buildings were swept by flames no loss of life is reported. Injuries were few and superficial.

According to scattered information the conflagration started at 2:10 this morning, either in the basement of the Concord Inn, one of Central California's best known automobile party hostels, or in the Concord Mercantile Company. Awakened by the roaring flames, twenty-five guests and servants in the inn managed to escape in their night clothing, saving no property in their flight.

The apartments of Mrs. Mary Fletcher, on the second floor of the Bank of Concord building, stood in the path of the flames. Occupants of the place, in imminent danger of incineration by the on-rushing flames, were saved by quick action of Jack Vogel, former member of Oakland's fire department, but now of this city. Warning the residents, he managed to escape several women, either too frightened to move or overcome by heat and smoke.

SEND FOR AID. It was seen immediately that the local fire department was helpless before the catastrophe and calls were issued to Martinez, Antioch, Pittsburg, Oakland, the railroad junction at Avon and other localities with fire apparatus. At 7 o'clock this morning the fire was entirely under control.

The following business establishments had suffered total loss: The Bank of Concord building in Salvo street, loss \$60,000; Concord Inn, Mt. Diablo street, \$100,000; Concord Mercantile Company, Salvo street, \$50,000; postoffice building, \$3000; Meekins Hardware Company, Mt. Diablo street, \$10,000, and Neustader & Son's retail house, Mt. Diablo street, \$50,000.

It is estimated that the establishments suffering total destruction were insured for 50 per cent of their whole value. The fire destroyed across the street from the main conflagration, suffered somewhat from the flames and water. The fire jumped across the street one structure, but extra apparatus from outside towns battled successfully to save the rest of the business section and city.

Offices of Dr. L. Martin, dentist, and Dr. Ed Johnson, physician, in the Bank of Concord building, together with the law office of A. F. Sherlock, were entirely destroyed. Sherlock's law library was one of the best in the county—his loss amounting to \$2500.

Threatened food shortage, brought about through destruction of the larger stores, was averted when an Oakland train stopped at Concord and the Comet stopped at Concord and dropped enough supplies to fill the emergency. Guards have been placed about the Bank of Concord vaults to

(Continued on Page 2, Col. 2.)

FILES SUIT AGAINST OXMAN

SAN JOSE, April 25.—Thomas Salsbury filed suit here today against Frank C. Oxman, star witness for the State in the murder trial of Thomas Salsbury, for the recovery of \$370 he alleges is due him for services rendered Oxman.

Salsbury contends that in November, 1916, he delivered cattle from Reno, Nev., to Kansas City, as an employee of Oxman. At the request of Oxman, he says, he sent a bill, which was given a check on the First National Bank of Boise, Idaho, which was signed "Bicknell & Oxman."

Subsequently, Salsbury alleges, the check was returned, marked "not authorized."

Oxman declared today the suit filed against him in San Jose by Thomas Salsbury was without merit.

Oxman admitted issuing a check which was not honored by the bank in connection with a stock deal, but stated that he and his partner, Bicknell, later ascertained that the money was due Salsbury and that Bicknell thereupon instructed the bank to refuse to pay.

BURNED TO DEATH. SANTA CRUZ, April 25.—Mrs. Charles Martin, aged 80, wife of "Martin Charlie," venerable founder of the town of Glenwood, Santa Cruz county, was burned to death this morning when her clothing caught fire as she was lighting a stove at her home at Glenwood. Mrs. Martin, with her husband, was known to thousands of Californians during the last fifty years, having been the proprietor of the Glenwood hotel, a noted stopping place for the last half century.

VOTES BIG LOAN

DENVER, Colo., April 25.—The board of directors of the Great Western Sugar Company today voted to subscribe to the \$100,000,000 war loan of the United States. The directors declared a \$10 per share extra dividend on the common stock.

W. T. Petrkin was elected president of the company and C. S. Morey, chairman of the board of directors.

POLICEMEN ON GUARD AT OXMAN TRIAL

Fresh Encounters Between the Counsel for Defense and State Momentarily Expected

Exciting Scene Is Witnessed at Conclusion of Hearing in Police Judge Brady's Court

SAN FRANCISCO, April 25.—With ten uniformed police officers detailed to preserve order and as many more plain clothes men scattered through the audience, the preliminary examination of Frank C. Oxman, accused of subornation of perjury, was resumed this afternoon before Police Judge Brady. Aside from hostile glances which shot back and forth between counsel on three sides, there was at the outset no reminder of the fistuffs which closed last night's session. F. B. Rigall was put on the stand and questioned on direct examination regarding a trip made with Oxman to San Jose, Attorney Samuel Shortridge will have his opportunity this afternoon to cross-examine Rigall, who accuses the Oregon citizen of inducing him to come here to testify against the five preparedness parade bomb plot defendants.

Interest in the trial is particularly acute today by reason of the expected personal encounters as an aftermath of yesterday's courtroom brawl, in which former Assistant District Attorney James F. Brennan and Attorney Edward Y. McKenzie rolled on the floor in combat.

The ex-parte encounter took place at the conclusion of testimony given by Frank B. Rigall in which he denounced Oxman as a suborner of perjury, and was not down for judicial decision. Judge Matthew Brady had just left the bench when hostilities broke out. Rev. Father Welch of old St. Mary's church, who was a witness in the case, being the principal spectator.

Mission of War Council in Washington Explained by British Foreign Secretary

Great Conflict Not Mere Quarrel For Territory, Diplomat Declares in His Message to America; Ideals at Issue

WELCOMES AID OF REPUBLIC

WASHINGTON, April 25.—Condemnation of "certain doubting critics, who think France and Great Britain have come here to inveigle the United States into entangling alliances with European forces," was voiced by British Foreign Secretary Arthur J. Balfour in a public statement here today.

The British foreign secretary, on the eve of the greatest world war council, outlined a brief declaration of motives and principles on behalf of our European allies.

"There could be no rumor with less foundation than the one I have just outlined," he said. "His fist clenched and his jaw set, he looked squarely in the eyes of his listeners as he continued. "And were it true there could be no more fallacious policy."

Joffre and Viviani Win Big Ovation

By Robert J. Bender. UNITED PRESS STAFF CORRESPONDENT. WASHINGTON, April 25.—The final step which brought representatives of the world's greatest democracies in personal contact for discussion of plans for successful waging of the world war against autocracy, came today with the arrival of the French commission in Washington.

Few more impressive scenes have been witnessed in Washington than that enacted at the navy yard when the Mayflower arrived with the French representatives at 12:30 this afternoon. Several thousand men, women and children lined the half-mile lane from the navy yard gates to the pier where the yacht docked with the distinguished visitors.

Mounted troopers came to attention from their position as guard of honor near the pier. Scores of naval and military officials were waiting to greet the commissioners. After the Mayflower was warped into her pier, the Marine band, on the lawn of the navy yard, struck up the "Marseillaise."

VISITORS WELCOMED. On the Mayflower's deck, standing out in sharp contrast among his civilian companions, was Marshal Joffre in red cap and pale blue army cloak. Immediately the gang-plank was up, Secretary Lansing mounted in the crowd and greeted Joffre, Joffre and other members of the party. A great cheer went up and the party, led by Viviani and Lansing, then descended the gang-plank. They went immediately to the residence of the French ambassador, where the commissioners. As they left the pier, the Marine band continued playing the French national air. Crowds lining the street cheered the commissioners as they were whisked away in limousines.

Pathetically cheering among the group of Frenchmen stood Colonel Fabry, Joffre's chief of staff, hobnobbing on the wooden leg he has worn since the German repulse at the gates of Paris.

Accompanying the party up the river were the officials who had met them at Hampton Roads, including Assistant Secretary of War Roosevelt, General Scott, chief of staff, and Admiral Huse.

GUNNER ON MONGOLIA HITS DIVER IN ATLANTIC

Shell Takes Effect at 1,000 Yards Distance; Periscope Is Smashed; Oil Flows to Top

FINE MARKSMANSHIP OF NAVY MAN SHOWN

Submarine Sent to Bottom as It Was About to Attack: Liner Formerly Known Here

LONDON, April 25, 4:45 p.m.—Captain Rice of the American steamship Mongolia, which arrived at a British port, told the Associated Press today that the Mongolia had fired the first gun of the war for the United States and sunk a German submarine.

The submarine, Captain Rice said, was about to attack the great liner in British waters on April 19. He declared there was absolutely no doubt that the U-boat was hit and that there was every reason to believe it was destroyed.

The naval gunners on board made a clean hit at 1000 yards. The periscope was seen to be shattered.

SHELL FINDS MARK. Even more pertinent fact, as showing the ultimate fate of the submarine, was that the shell disappeared immediately after the hit was made. The captain stated that a shell always ricochets in the water and can be seen again unless it finds the mark. Oil also was seen on the water after the submarine disappeared.

The periscope was sighted dead ahead on the last afternoon of the voyage. The captain gave the order for full speed ahead with the intention of ramming the submarine. The periscope disappeared and a few minutes later reappeared on the ship's broadside. The gunners fired, hitting the periscope squarely and throwing up a fountain of water.

The Mongolia was going at full speed and was a long distance away when the spray foam subsided, but from the bridge the officers observed the spot through their glasses and they are confident the submarine was sunk.

SHIP KNOWN HERE. NEW YORK, April 25.—The American steamship Mongolia, a vessel of 13,638 tons, owned by the International Mercantile Marine Company, left an American port for London April 7, on her second trip since German's submarine declaration of February 1. The vessel was formerly in the service of the Pacific Mail, plying between San Francisco and the Orient.

The Mongolia carried a crew of United States gunners. She is one of the largest vessels under the American flag.

The Mongolia was built at Camden, N. J., in 1904 for the Pacific Mail Steamship Company. She was purchased by the International Mercantile Marine in 1915 and brought to the Atlantic, carrying freight only.

April 19, the day on which the Mongolia fired the first shot of the war, as the anniversary of the battle of Lexington, when the first shot was fired in the American revolution.

FIRST U. S. LOAN CONSUMMATED

WASHINGTON, April 25.—America's first war loan to Great Britain was consummated at 11 o'clock this morning, when Secretary of the Treasury William G. McAdoo signed a treasury warrant for \$200,000,000 and turned it over to Sir Cecil Spring-Rice, the British ambassador.

Sir Cecil Spring-Rice, British ambassador, handed to Secretary McAdoo a receipt, completing the transaction. The amount of the loan was deposited today in Federal Reserve banks by banks subscribing to the \$250,000,000 home loan, and the issue of treasury certificates of indebtedness due June 30. The \$50,000,000 remaining of the issue will be disposed of in a manner yet to be announced.

DIVER POLICY TO BE CHANGED

LONDON, April 25.—Indications piled up today pointing to a move by Germany to modify her submarine warfare, at least insofar as neutrals are concerned.

Coincident with the announcement that the Spanish, in her latest note to Germany protesting against relentless submarine warfare, had virtually served an ultimatum, it became known that Germany had summoned home her ministers to neutral countries for a conference on the U-boat situation.

CIVIL BOARD PROBES OIL STOCK DEALS

During a hearing that lasted until midnight the Civil Service Board commenced its review of the charges originating in the grand jury through which E. J. Conroy, former corporal of police, was dismissed from the department by Commissioner Jackson, for selling certain oil stocks to gamblers, women of questionable character and representatives of lotteries. Conroy appeared to the Civil Service Board for reinstatement. The hearing was continued from last night until next Friday night, when more witnesses will be examined.

Attorney Philip M. Carey, representing Conroy, at the outset, attacked the procedure of the hearing and the preliminary steps in the matter as coming from the grand jury and Commissioner Jackson. He contended that no charges had been filed, that the grand jury had no jurisdiction to make a recommendation of dismissal and that there had been nothing done that would constitute charges.

"We ask for a verdict in our favor for want of jurisdiction," he said.

PRESSES CHARGE.
District Attorney Hynes was present. Ben Jones, secretary to Commissioner Jackson, represented the commissioner in pressing the charge. Jones presented a transcript of testimony taken before Commissioner Jackson when Conroy was dismissed and asked that the decree be sustained.

President Roscoe D. Jones of the Civil Service Board declared that the testimony would have to be presented to the board and ruled out the transcript. Secretary Jones then asked that the case be continued in order to afford the commissioner time to bring in witnesses. It developed that Conroy had already subpoenaed Edith Hammond, Myrtle Diebold and others who were present. After a consultation between President Jones and District Attorney Hynes, Hynes returned to the room and said that he would put on testimony of those present, and the board proceeded. Attorney Carey consented with the understanding that the defendant reserved his contention that written charges should be filed.

REPORT TESTIMONY.
The testimony followed along the lines of that taken before the grand jury. Edith Hammond said that she was introduced to a man named Coffman by Corporal Conroy; that Coffman had sold her the stock and that Conroy collected the money in installments, some being paid by check and some in cash. She added that Conroy had told her that Commissioner Jackson, Captain Thorwald Brown and other well-known persons were interested in this stock.

"He asked me if I did not want to have the same advantages in life as they," she said. "He told me that later on things might open up a little and I could make some money. He did not purchase the stock, but the idea that it would afford me protection because I was not getting protection at the time, and had I bought it with that expectation I certainly would have put in several girl assistants."

Myrtle Diebold, who conducted a rooming house at 1632 Seventh street, testified that she had purchased her stock from Coffman, with the idea that she later inquired for and met Corporal Conroy, whose name she saw on the literature and from him finally obtained her stock certificate. Edith Hammond said that she never received a certificate.

MANNER OF SALES.
Attorney Carey raised the point that nothing was being shown by the testimony which would indicate that in selling the stock Corporal Conroy violated any law.

"The stock may have been sold right," replied District Attorney Hynes. "But it is the moral end of the deal that we object to. It was the manner in which the sales were made that brought about this investigation."

Conroy took the stand and related the circumstances of the stock transaction from the time he first obtained a block of the oil stock. He said that he hired Coffman as his agent to sell the stock and only collected after Coffman quit the job. Captain Brown having lost interest in the stocks sold by Coffman for Conroy, Conroy said.

TO CONSIDER RATE

PORTLAND, Ore., April 25.—Public service and utilities commissions of Washington, California, Idaho and Oregon will meet here Friday to consider what action shall be taken by the four states in connection with the application of the railroads of the country for increases in freight rates. Shippers will be heard by the commissions to learn what action is desired when the carriers' applications come before the Interstate Commerce Commission.

FIRE UPON LAUNCH

VALLEJO, April 25.—Sentries at the Mare Island navy yard early this morning fired upon a small unidentified launch which approached closer to the yard than wartime regulations permit.

Six shots in all were fired before the boat turned tail and disappeared in the darkness. It is not known whether any of the shots found a mark.

SON OF ORIGINAL "TOM SAWYER" IS DEAD IN OAKLAND

Thomas Edward Sawyer, son of Mark Twain's original Tom Sawyer and one of the oldest carmen in the state, is dead. The funeral will be held tomorrow afternoon in San Francisco. Following a Masonic service in the city, the body will be taken to the cemetery. Sawyer was born in San Francisco in 1860. His father, after a long residence in that district, which Mark Twain made famous, came to California during the gold excitement, settling there finally in 1870. There were two other sons, Joseph and William. Tom was the second boy in the family. For the past twenty years Sawyer has resided in Oakland. He passed away at his residence, 5534 East Fourteenth street, Monday, April 23, at the age of 56. He was survived by a widow, Mrs. Ella P. Sawyer; a son, Thomas A., and a brother, Joseph Sawyer. The last rites will be performed at the residence of the latter, 5032 East Fourteenth street.

Following organizations will participate in last rites: Eden Lodge, No. 113, F. & A. M.; Golden Wave Chapter, No. 103, Order of Eastern Star; Elm Camp, No. 351, Woodmen of the World; Benevolent Society of Carmen and Key Stone Lodge, No. 103, B. O. E. F. Sawyer was a member of them all.

CONCORD BLOCK RAZED BY FIRE

(Continued From Page 1)

prevent tampering with thousands of dollars of securities and currency. It is thought that the huge receptacles have rendered safe the valued contents, but likelihood of looting has been responsible for the employment of special watchmen.

EXPLOSION FOLLOWS.

An explosion, probably of powder in the Concord Mercantile Company's establishment, took place shortly after discovery of the fire. This explosion is thought to have rendered the flames uncontrollable, for shortly afterward the fire assumed more dangerous proportions. Fear that the entire city would burn resulted in calls for outside apparatus. Chief Elliott Whitehead and two fire motors from Oakland arrived shortly after 4:30, just in time to keep the flames from jumping across the street and spreading to the neighboring district.

Although telephonic communication within the town itself has been destroyed, long-distance communication is not affected. The fact that it is not known at present. Fire adjusters and members of the secret detective force are working upon the explosion problem.

It was learned definitely today that only one serious injury resulted from the fire. Frances McCay, postmaster at Associated, suffered severe bruises and possible internal injuries when the automobile he was driving plunged over an embankment near Concord and then the car rolled many feet down the air of the rocky ground. McCay was speeding to this city to offer his services in battling the flames.

FUNERAL IS HELD

Funeral services were held today for Nina Mary Lee Crittenden, 12-year-old heiress to one of Oakland's oldest and valuable estates, who passed away suddenly at her home, 1000 Broadway, at 10 o'clock yesterday. The daughter of the late William G. Crittenden, widely known attorney and realty operator here, she had been ill for many years at the home of Mrs. A. C. Scott, an aunt, 5460 Thomas street.

Surviving relatives include a sister, Clara; brother, Rupert; grandfather, Alexander; grandmother, Mrs. James L. Crittenden, and uncles and aunts.

GRANTED ESTATE

Mrs. Ida May Theurer, proprietor of the Hotel Menlo and the Del Mar Apartments, was this morning granted an interlocutory decree of divorce from Tobias Theurer, bookkeeper, on the grounds of cruelty by Superior Judge T. W. Harris. Theurer, who alleged that his wife had an estate valued at \$10,000, received \$500 cash from the estate in a property settlement made out of court.

Mrs. Theurer, in her complaint, alleged that in the summer of 1916 her husband invited a stenographer in his office to be a member of the family party on a vacation trip to Yosemite Valley. She also charged that he beat her son by a former marriage without excuse.

The Theurers were married in Redwood City in 1910 and separated in December, 1916.

OIL DUMMY HEARD

NEW YORK, April 25.—C. Rupert Walker of Jamaica, L. I., played a valuable witness in the hearing today of the government's suit to recover California oil lands, claimed to have been acquired by L. B. McMurtry through the use of dummy lecturers on the land. Walker was the first witness to make a practical admission that he was a dummy in the oil land transaction. He told of receiving \$500 in two installments from McMurtry or his agents, and also said that he had signed papers ten years ago which gave him title to the land in his name. Walker testified that he signed as a favor to a former employer.

BERNHARDT SAME

NEW YORK, April 25.—A bulletin issued today by the physicians attending Sarah Bernhardt said there had been no change in her condition and they were "satisfied with her progress so far." The actress underwent an operation for an infected kidney early Monday evening.

ALLIANCE IS NOT SOUGHT BY ALLIES

(Continued From Page 1)

killed in action, four have lost sons, and now Bonar Law meets the common and deep sorrow which has visited the humbleness to the highest homes in England.

"The sorrow and tragedy of France has been greater than ours, because France had by far the greater army. I sincerely hope that Bonar Law's son is not entirely lost."

WASHINGTON, April 25.—The French war commission, headed by former premier Viviani and Marshal Joffre landed at the Washington navy yard pier from the President's yacht Mayflower shortly before 12:30 today.

The tri-color of France took its place today among the allied flags floating over the war capital of the French commission headed by former Premier Rene Viviani.

Long before the scheduled hour of arrival a crowd of men, women and children, which promised to be even larger and more enthusiastic than that which greeted Secretary Balfour yesterday, gathered at the Union station Sunday, morning, toward the navy yard from all directions.

Many of the informal welcome were the tri-colors, the British emblem and the Stars and Stripes. The French party was escorted by two troops of the Second United States Cavalry to the residence of Henry White.

The outgoing question before the conference is to be held in the battlefront at once.

The French desire it. The British are non-committal, but the United States can do more for the allies just now with money and food.

The Washington administration inclined to the British view. It is possible that point will be settled by big immediate loans to France and England, concentration on the production and supplying of food to the allies and to the despatch of railroad, telephone and other technical experts from America to supplement those of the allies at the front.

The food and financial questions are virtually settled in their broad application, awaiting only the official approval of the French, English and American war commission heads.

NEW WAR FOR LIBERTY.

Marshal Joffre and other military members will indicate to American officials several important military reasons which they consider render the sending of such a force advisable. The most important of these reasons is found in the moral effect to be had from the presence of American troops and the American flag on the battlefields of Europe.

The French idea of an American expedition calls for a fighting force supported by auxiliary services, such as railway staffs, railway material, base repair shops, telegraph and telephone lines, automobile transport and a strong aviation section. The French military is ready to offer what ever may be considered necessary to assist in sea operations, including the use for naval purposes of any or all ports in France. The ministry of marine has worked out for submission to the American government a comprehensive plan for co-operation for both army and navy purposes, and for the provisioning of the civil population.

A superficial survey of the American expeditionary force, question probably will be made at a brief meeting between President Wilson, Viviani and Secretary Balfour today.

In this quiet, broad, rounded city on the Potomac, surrounded by the hills and dales over which the first great battles for a nation's freedom were fought more than a century ago, the representatives of the greatest peoples of the earth will be gathered for the next three weeks.

Europe, according to the Impressionists, looks upon the declaration of principles being evolved by international conferences beginning today much as the original Thirteen States regarded the Declaration of Independence made in the Cradle of Liberty, not three hours distant from here, July 4, 1776. Thus, the development of this world's new capital is given a wider significance than could be given by a mere discussion of America's mechanical part in the war of nations.

The American Revolution, the conference say, was to guarantee freedom of the development of personal individuality. While the war, whose broad policies are being guarded by the development of nations and peoples.

LONDON ALLIANCE MADE.
LONDON, April 25.—The United States has not entered into any alliance with England, Lord Robert Cecil declared in the House of Commons today. His statement was a reply to a query from the Irish Nationalist member, Mr. O'Donnell, Lord Cecil is acting foreign secretary. The absence in America of A. J. Balfour.

IS GIVEN 3 YEARS

Mrs. Lulu B. Day, whose sensational career involved the alleged kidnapping of her child of Mrs. J. B. Seider of Oakland, her arrest in Tennessee and her subsequent extradition to San Diego on a charge of theft, was sentenced today to three years in San Quentin, in the superior court of San Diego county, for grand larceny. She was charged with having stolen jewelry and a society motor of this city, by whom she was employed as a domestic. Following the theft she came to Oakland where she became acquainted with a Schneider from whom she later stole the baby.

Nux Iron Pepsin and

SARSAPARILLA—Effective Combination.
As comprised in Hood's SARSAPARILLA and Pepsin Pills, these powerful remedies possess unequalled health-value for the alleviation and cure of a long train of ailments common among our people in this 20th century.

In these days of rushing and pushing, beyond the endurance of men, the robust, healthy, manly man, woman needs and must have the aid of the health-giving powers of this combination of medicines to support and sustain normal health tone. If it is not supplied, the depletion of the blood and the broken-down nerves will soon give way to permanent invalidism and ruined health.

The very best remedies for blood-purifying and adding are Hood's SARSAPARILLA and Pepsin Pills. You know well the great tonic properties of iron. They are combined and improved in this combination—Hood's SARSAPARILLA before meals, Pepsin Pills after.—Advertisement.

THOUSANDS MOWED DOWN

(Continued From Page 1)

has shattered and withered the flower of the German army and the British line has been advanced to within a few hundred yards of Cherbourg and Flanders-Crommel.

This is the third day of the second phase of the great Arras battle, and it has been marked by some of the bitterest charges and counter-attacks of the war.

The council of army and navy delegates at Sveaborg has decided to send a wireless message to the allied fleets saying that the Baltic fleet and the army defending are in complete readiness in defense of free Russia, according to Helsingfors despatch.

The message will add that soldiers and sailors are in perfect union with their officers. This action is intended as a reply to reports that the Baltic fleet was disorganized and incapable of fighting.

BERLIN REPORTS.

BERLIN, April 25, 4:45 p. m.—Since yesterday and this morning, says the official statement issued by the German army headquarters at Berlin, the fighting continues in the possession of the village of Gavrelle, six miles north of Arras. On Monday, the statement added, 650 British soldiers were taken prisoner. Twenty companies were brought down by the Germans on Monday and nineteen entente machines were accounted for yesterday on the western front.

RUSSIANS FIRM.

COPENHAGEN, April 25.—Germany's latest attempt to cripple Russia from within apparently has failed.

Despatches from Petrograd today declared that desertions at the front are rapidly falling off. War Minister Guichoff's frank appeal to the soldiers to stay on the firing line is declared to have had the desired effect. The war minister has assured the soldiers that all their civil rights will be protected.

German agents spread reports among the Russian armies that lands throughout Russia were being distributed among the people and that the soldiers would not receive their allotments unless they left the front. It was admitted in Petrograd that these reports resulted in many desertions.

Guichoff, in his appeal, declared that no lands would be distributed until after the war.

DESTROY HARBOR.

PETROGRAD, April 25.—The destruction of the Turkish harbor works at Kerasunt and of five Turkish vessels in that port was announced officially today as the successful outcome of a Russian cruiser, destroyer and submarine raid.

CALIFORNIAN SHOT

SAN FRANCISCO, April 25.—Lieutenant Stanislaus Poniatowski, 21-year-old son of Princess Andre Poniatowski, who was formerly Elizabeth Sperry of California, a sister of Mrs. W. H. Crocker, has been wounded in action with the troops in France for the second time, according to a cablegram received by Crocker from Paris yesterday. He was slightly wounded in the forehead, his mother announces in her cablegram.

Lieutenant Poniatowski and his father enlisted in the French infantry early in the war. The young lieutenant saw much service on the Verdun front, and in one engagement was one of six French soldiers out of a whole detachment who survived. He was wounded in a hand-to-hand encounter with a Uhlans and killed his adversary.

SITE COMPROMISE

SACRAMENTO, April 25.—The San Francisco Normal school, which has been the subject of a long and bitter legislative battle, appeared today to be in a fair way of solution by reason of determination of the Senate committee on Education and Public Lands to select the site of the California building on the Oakland site for school purposes.

The assembly ways and means committee is expected to pursue the same course in respect to Senator Nealon's bill carrying a \$300,000 appropriation for the construction of a new normal building on its present site. The program meant that Senator Kehoe's compromise bill appropriating \$500,000 for a new building on a site to be selected by the school's trustees will be argued for passage in the Assembly. It passed the Senate last week.

PLANS U. S. UNIT

LONDON, April 25.—America may not have the military training and training of an expeditionary army in the United States to put the Stars and Stripes in action on the battlefields of France.

Colonel Gillock of the Canadian army, a Chicago clergyman and later lecturer before the New York school board, was working today—with the aid of influential Americans—on a scheme to transfer all American troops fighting with the allied armies into one American fighting unit.

SPAIN THREATENS GERMANY BOY SCOUTS IN MOBILIZATION

LONDON, April 25.—The Spanish government's note to Germany regarding Germany's submarine campaign contains a paragraph stating that if Germany continues in its determination to sink all vessels in order to defend its life, Spain must take a like step to defend her life.

R. R.'S SCORE RATE VICTORY

WASHINGTON, April 25.—American railroads today scored their first victory in the 15 per cent advance rate case when the Interstate Commerce Commission handed down a decision which will greatly expedite the case and simplify the preparation required of the railroads.

DIVIDE ESTATE CLAIM INSANITY

The \$800,000 estate left by Mrs. Amanda M. McNear will be divided equally among her six children, according to the will filed for probate yesterday. The beneficiaries will be Mary A. Bowles of this city, John A., George W., Fred W., and Edward B. McNear of San Francisco and Mrs. Elizabeth H. Schuch of Petrograd, Russia. John and George McNear and Mary A. Bowles will be the executors.

LOS ANGELES, April 25.—The defense

in the Benton L. Barrett case is today at work laying the ground work for its defense of insanity for the aged farmer accused of murdering his wife and stepson and burning their bodies. A number of love letters, alleged to have been written to Mrs. Barrett by a former admirer, were introduced to show possible grounds for Barrett's supposed unbalanced reason.

Plies Cured in 6 to 14 Days

Druggists refund money if PAZO DEXTMENT fails to cure itching, blind, bleeding or protruding piles. First application gives relief. 50c-40¢.

Miss Lucy Van De Mark will sing at Breuners to-morrow afternoon

NEW OFFICE AND RESERVE RECRUITING

Engineers and surgeons who will volunteer their services in examining recruits are the special needs of the local branches of the army at present. A branch recruiting office has been opened at 1422 San Pablo avenue for the purpose of securing a full company of the Engineer Enlisted Reserve Corps in this city. This office will be open between 7 and 9 o'clock each evening, and besides receiving applications for enlistment will supply information regarding the engineering branch of the service. A strong effort is being made to secure the enlistment of skilled workers, including electricians, carpenters, blacksmiths, pipe-fitters and draftsmen.

In announcing that a campaign will be started immediately to enlist the voluntary services of Oakland engineers, Sergeant C. E. Petersen, in charge of the enlisting, said that recruiting in Company B has been seriously hampered by the lack of available surgeons to examine recruits. He stated that many young men who have been enthusiastic to enlist in the battery have been persuaded by friends and relatives to change their minds before surgeons could be obtained to examine the applicants. Surgeons who feel they can spare a few hours weekly to the patriotic service are being asked to send in their names and office addresses to Sergeant Petersen.

SEEKING RECRUITS.

Accompanied by several Oakland girls, Sergeant Martin Herzog, in charge of recruiting for the United States Marine Corps, is today touring through San Leandro, Hayward, Livermore, Niles and other Alameda county points to stimulate recruiting.

Chief Electrician Harry Bidwell, U. S. N., in charge of recruiting for the United States navy, stated that yesterday the enlisting for the past three days of the week had exceeded by 300 per cent the required quota for the district.

Naval recruiting headquarters officials expressed the opinion that the United States will have to make an urgent call upon medical men within a short time both for army and navy service.

LETTERS PATRIOTIC.

Inspiring patriotism is shown in many of the letters received by the first Oakland volunteers from men who offer their services in any capacity in which they can be used. Following are excerpts from a few of the letters:

"From a volunteer to one of the officers of the regiment: 'I am a married man, but expect to be called upon to serve sooner or later, and I don't know of anybody who I would rather serve under than yourself. When I think of the old days when we used to chase over the hills together and play football, we came mighty near to doing what we started out to do, and today I am sure we could do the same in serving our country.'

"From a local negro: 'I have the names of 100 negroes who want to join your regiment for active service. Could you not form us into a company for drill, supply us with officers and make us ready for the time when Uncle Sam will need us?'

"From a world citizen: 'I have

COUNTERFEITS ARE SEIZED BY U. S. OFFICERS

WASHINGTON, April 25.—The treasury department today completed destruction of nearly a ton of counterfeit coins representing a fictitious value of \$50,000, having seized United States currency of \$75,000 face value, and about \$20,000,000 counterfeit Mexican paper money, all seized by secret service agents within the last year. This was the largest single quantity of counterfeit money destroyed for a number of years and represented the unusually important captures in the past year, mainly on the Pacific coast. The currency was burned and the coins, made principally of lead, were melted and will be used for window weights.

BRYAN IS ON WAY TO 'DO HIS BIT'

INDIANAPOLIS, Ind., April 25.—William Jennings Bryan is off for the West to "do his bit" for the government, standing firmly by President Wilson, and confident Congress will prohibit the manufacture of liquor until the end of the war.

"Bryan is on his way to San Diego, where he will begin a speaking tour that will last a month. He will deliver two speeches daily, covering California, Arizona, New Mexico, Kansas, Texas and Arkansas, advocating increased production of food.

"My trip will be confined to placing emphasis on the need for great production of foodstuffs and follows my conference with President Wilson," said Bryan, here between trains. "The need of increasing the food supply has not been fully emphasized in the West."

Bryan refused to state his stand on conscription, saying: "I can do more by getting out and working than by talking."

WILL SEE RUSSIA

LOS ANGELES, April 25.—Previous to embarking for Russia and the Orient, where he will conduct a three years' survey, feeling the pulse of trade throughout that section and preparing for this country's worldwide campaign for the commerce of the globe, A. W. Perrin, special agent of the United States department of commerce, is in Los Angeles, conferring with local financiers and business. Perrin will leave within a few days for San Francisco whence he will depart May 1 on his far eastern trip.

KILL SYNDICALISM BILL

SACRAMENTO, April 25.—Holding the view that the bill was dangerous in that it could readily be construed to prohibit perfectly legitimate and proper labor organizations, today the Senate Judiciary Committee, today killed off the Finley measure which was designed to prohibit criminal syndicalism. The bill defined criminal syndicalism as "the doctrine which advocates, by force, violence, terrorism or other unlawful methods of industrial or political reform."

At the local organization of the two regiments required, one for active service and one for state service, will be recruited to their maximum strength much earlier than was expected.

ASSOCIATED PRESS PLEDGES LOYALTY

NEW YORK, April 25.—Newspaper publishers from all parts of the country assembled here for the annual meeting of the Associated Press have passed a resolution pledging their "heartily support of the effort of the executives of the government to carry out effectively the mandate of the nation," expressed in the war resolution passed by Congress on April 6. This action was taken at a business session of the association, which followed a patriotic luncheon at which the Stars and Stripes, Union Jack and Tri-Color were raised and unfurled amid the cheers of members and while a chorus of fifty voices sang the national anthems of the United States, England and France.

Feeling at the luncheon of a telegram from President Wilson, expressing regret that his duties prevented him from being present to exchange with those assembled "the undesigned but sincere loyalty and devotion to the people of the government, not only, but to the cause of freedom everywhere," was followed by prolonged applause. Joseph H. Choate and former Judge Peter S. Grosscup were the principal speakers. Frank B. Noyes, president of the association, was toastmaster.

The room in which the luncheon was held was decorated with the national colors and bearing on the wall was the presidential flag and a miniature Statue of Liberty. Soon after the guests were seated the lights were turned off while four marines hoisted the flags of the United States, Great Britain and France to music so constructed that compressed air kept the colors of the three allies waving. "The Star Spangled Banner" was sung by members, and this was followed by "God Save the King" and the "Marseillaise."

CHOATE APPLAUDED

Choate was warmly applauded when he declared that he believed "the spirit of Abraham Lincoln had led us into this war." He pictured President Wilson as "our chosen leader" and urged all to stand by him.

"Some of us in the past have criticized the President," Choate continued, "some of us have long hesitated and doubted; some of us thought that watchful waiting would never cease, but now we see what the President was waiting for and how wisely he waited. He was waiting to see how fast and how far the American people would keep pace with him and stand up for any action he proposed."

Former Judge Grosscup asserted that the war had developed a new feeling, a new attitude, a new recognition of the common man.

"This thought of service, this idea of service, is rising like a golden halo, uniting all in covering the country from one end of the world to the other and is enshrining, enfranchising the common man, as, after all, the object of all existence," he said.

The resolution passed at the association's business session follows:

"Resolved, by the Associated Press in annual session assembled, that as loyal citizens of the United States, we hereby pledge our hearty support of every effort of the executive of the government to carry out effectively the mandate of the nation as expressed in the war resolution adopted by the Congress on April 6, 1917."

DIRECTORS NAMED

The following were re-elected members of the board of directors of the Associated Press: Washington (D. C.) Star; W. L. McLean, Philadelphia Bulletin; A. D. C. Weiss, New York Times; and A. C. Weiss, Duluth (Minn.) Herald, and John R. Rathbone, Providence (R. I.) Journal. Advisory boards include: Central division—J. L. Sturtevant, Wausau (Wis.) Record-Herald, chairman; J. C. Seacrest, Lincoln (Nebr.) State Journal; secretary, H. J. Allen, Wichita (Kan.) Beacon.

Western division—A. N. McKay, Salt Lake Tribune, chairman; Scott C. Bone, Seattle (Wash.) Post-Intelligencer, secretary; S. A. Perkins, Tacoma (Wash.) Ledger; J. R. Knapp, Portland (Ore.) Tribune; L. N. Stevens, Pueblo (Col.) Chieftain.

Members of the new nominating committee include: Central division—P. E. Burton, Joplin (Mo.) News-Herald; Ernest Bross, Terre Haute (Ind.) Star.

Western division—J. O. Hayes, San Jose (Cal.) Mercury-Herald; R. D. Crockett, San Francisco Bulletin.

On the auditing committee, O. A. Bradenburgh, Madison (Wis.) Democrat, will represent the Central division, and Calvin Cobb, Boise (Idaho) Statesman, the Western division.

RAILROAD MEN TO HOLD SESSION

Whether or not the business relations between the city of Oakland and the railroad companies doing business over the waterfront are to be harmonious in the future depends upon the future deliberations of a committee which yesterday met in the office of Commissioner Harry S. Anderson to discuss matters pertaining to collection of tolls and wharfage under the present waterfront ordinance.

No definite date has been set for further conference between the parties concerned, it having developed that certain legal complications will have to be worked out before the body can proceed towards an understanding relative to their respective contentions and interests.

By the means the Board of Public Works is considering plans for forcing the Southern Pacific Company to accept a popular demand to improve the waterfront properties at Fourteenth and Franklin streets which have been characterized as an eyesore to the district.

The association endorsed the policy of the city administration that no further favors shall be accorded the railroad company until it announces some definite plan for removing the "eyesore."

EDDY AIDE DIES

BOSTON, April 25.—Calvin A. Frye, who, for thirty years, occupied a high position in the household of the late Mrs. Mary Baker G. Eddy, founder of the Christian Science church, died here last night, aged 71.

He became a familiar figure when, during Eddy's last illness, he acted as the principal medium of communication between the head of the Christian Science church and her intended visitors. He administered part of Mrs. Eddy's funds.

PLAN SERVICES

Puneral services for the late Mrs. Georgia H. Terry, during the past fifty years a central California resident, will be held Friday afternoon at 2 o'clock at the home of Mrs. Terry, 1514 Broadway, N. H., he acted as the principal medium of communication between the head of the Christian Science church and her intended visitors. He administered part of Mrs. Eddy's funds.

SHORT LOBSTERS

NEW YORK, April 25.—New York is short of lobsters. They are now being imported from Africa, according to the New York Herald. The National City bank. Cloth mills also are importing wool from Iceland. Of the \$5,000,000 worth of eggs imported since the war began, China sent \$2,000,000 worth.

Weeks Lecture Program—UC

TONIGHT.

101 California Hall—Dr. H. C. Bryant, "Methods of World Life Conservation," 8 a. m.

212 Wheeler Hall—John P. Forbes, "Cost Accounting," 7:30 p. m.

Wheeler Hall Auditorium—Concert by members of classes of George Bowden, lecturer in voice culture, 8 p. m.

THURSDAY.

112 California Hall—John B. Selandar, "Wheeler Hall Auditorium—Cecil Forsyth, "Greek Theatricals in Music and the Greek Musical System," 8 p. m.

FRIDAY.

Wheeler Hall Auditorium—Miss Katherine Jewell Everts, reading of "My Lady's Ring," by Alice Brown, 8 p. m.

Lecture room, Pathology building—Dr. A. L. Hagerdorn, "The Course of Evolution," 4:30 p. m.

Philosophy building—Prof. Charles H. Riebert, "The Platonic Logic," 8 p. m.

Wheeler Hall Auditorium—Miss Katherine Jewell Everts, reading of "Brunelleschi," by John Galen Howard, 8 p. m.

TO SUPPRESS STRIKES

The anti-strike movement in Germany was discussed at a meeting of the Reichstag auxiliary service committee at which Count Westary, leader of the conservatives, welcomed the new German government. He further attempted to interfere with munitions work would be ruthlessly suppressed. Count Westary insinuated that money had played a part in the strike movement. He charged a minority of playing the game of Germany's enemies. He denied that the trouble was caused by lack of food.

MOONTY CASE CITED

LONDON, April 25.—German propaganda is centered on a dramatic Russian to such an extent that in certain quarters here today considerable apprehension was evidenced as the necessity for immediate stamping out of the influence of the organized anti-American demonstration Sunday night in which the American embassy at Petrograd was threatened by attack of a number of Socialist radicals emphasized the danger. This was coupled with widespread reports of an exodus of Russians from Petrograd, induced by alarmist reports of an approaching German drive at the capital—the reports emanating from certain German sources.

Reports from Petrograd today threatened a demonstration against the American embassy directly to German propaganda work. Nikolai Lenin, a Russian radical, for some time exiled in Switzerland, recently returned through Germany. He was reported to be gathering to a high pitch of frenzy by declaring America was the foe of Socialists, having executed the Socialist Mooney in San Francisco. Ambassador Francis was said to be entertaining at dinner. He armed himself and awaited the crowd. The crowd later dispersed.

GERMANS ACTIVE

RIO JANEIRO, April 25.—Telegrams received here from Parana confirm reports that the Germans in southern Brazil are concentrating in the state of Santa Catharina. It is believed a German insurrection in the south is imminent.

Deputy Jose Nabuco de Gouveas of Rio Grande do Sul returned to Rio Janeiro yesterday and said he was able to confirm the reports that recent disturbances in Porto Alegre were caused by Germans. He declared that the next population was determined to crush the Germans if they did not desist from their efforts to make trouble.

WOMEN AID WORK

ST. LOUIS, April 25.—In the great farming districts in Southern Illinois and eastern Missouri and Arkansas today they are preparing to contribute their share in filling Uncle Sam's market basket. In practically every section around St. Louis there is increased acreage. Women and children are working in the fields, helping the labor shortage. In the larger cities back yards, usually given over to flower cultivation, this year will yield lettuce, cabbage, radishes and other truck. This "back yard" gardening, stimulated through newspaper and magazine campaigns, has released many acres of farm lands that have been previously given over to truck garden cultivation. The home chicken-raising industry also has been installed in many residential lots.

RAILROAD MEN TO HOLD SESSION

The anti-strike movement in Germany was discussed at a meeting of the Reichstag auxiliary service committee at which Count Westary, leader of the conservatives, welcomed the new German government. He further attempted to interfere with munitions work would be ruthlessly suppressed. Count Westary insinuated that money had played a part in the strike movement. He charged a minority of playing the game of Germany's enemies. He denied that the trouble was caused by lack of food.

MOONTY CASE CITED

LONDON, April 25.—German propaganda is centered on a dramatic Russian to such an extent that in certain quarters here today considerable apprehension was evidenced as the necessity for immediate stamping out of the influence of the organized anti-American demonstration Sunday night in which the American embassy at Petrograd was threatened by attack of a number of Socialist radicals emphasized the danger. This was coupled with widespread reports of an exodus of Russians from Petrograd, induced by alarmist reports of an approaching German drive at the capital—the reports emanating from certain German sources.

Reports from Petrograd today threatened a demonstration against the American embassy directly to German propaganda work. Nikolai Lenin, a Russian radical, for some time exiled in Switzerland, recently returned through Germany. He was reported to be gathering to a high pitch of frenzy by declaring America was the foe of Socialists, having executed the Socialist Mooney in San Francisco. Ambassador Francis was said to be entertaining at dinner. He armed himself and awaited the crowd. The crowd later dispersed.

GERMANS ACTIVE

RIO JANEIRO, April 25.—Telegrams received here from Parana confirm reports that the Germans in southern Brazil are concentrating in the state of Santa Catharina. It is believed a German insurrection in the south is imminent.

Deputy Jose Nabuco de Gouveas of Rio Grande do Sul returned to Rio Janeiro yesterday and said he was able to confirm the reports that recent disturbances in Porto Alegre were caused by Germans. He declared that the next population was determined to crush the Germans if they did not desist from their efforts to make trouble.

WOMEN AID WORK

ST. LOUIS, April 25.—In the great farming districts in Southern Illinois and eastern Missouri and Arkansas today they are preparing to contribute their share in filling Uncle Sam's market basket. In practically every section around St. Louis there is increased acreage. Women and children are working in the fields, helping the labor shortage. In the larger cities back yards, usually given over to flower cultivation, this year will yield lettuce, cabbage, radishes and other truck. This "back yard" gardening, stimulated through newspaper and magazine campaigns, has released many acres of farm lands that have been previously given over to truck garden cultivation. The home chicken-raising industry also has been installed in many residential lots.

RAIL DECISION IN ERROR, SAYS U. C. PROFESSOR

BERKELEY, April 25.—That the Supreme Court of California has erred in deciding that the Railroad Commission has no regulatory power with reference to the crossing over railroads wholly within the confines of a chartered city is contended by professor William Cary Jones, director of the school of jurisprudence of the University of California, in an article in the "California Law Review" for May, published by the faculty and students of the school of jurisprudence.

Professor Jones presents three fundamental lines of reasoning, any one of which he believes would justify a reversal of the ruling of the court.

Several cases are now pending involving generally the same state of affairs, so that the discussion is one of live interest to lawyers and others interested in the powers of the State Railroad Commission.

HELD FOR MURDER

CONDON, Ore., April 25.—Joseph Wallace is under arrest here today charged with having shot and killed his wife yesterday on a farm two miles from Condon, where she worked. Testimony at the inquest indicated Wallace was jealous of his wife and wanted her to quit her position.

START SHIP WORK

WASHINGTON, April 25.—Construction of the first of the 1000 wooden merchant vessels to pontoon the Atlantic, squelch the submarine menace and feed Europe through America, will begin within a few days, Secretary of Labor Wilson announced today.

WILL JOIN CORPS

CHICAGO, April 25.—Jack Patton, son of James A. Patton, widely known Board of Trade operator, and Wilbur Higginson, a football star at Northwestern University, will leave Chicago next week to join the American ambulance corps in France. It was announced today. Each will hold a position in the ambulance, given him by Patton.

TO HOLD BANQUET

VALLEJO, April 25.—The Mare Island shipbuilders are to have a get-together banquet at the Vallejo Blue Rock Springs next Saturday night and the mechanics who have been busy constructing Uncle Sam's warships are preparing to have a most enjoyable time.

SHORT LOBSTERS

NEW YORK, April 25.—New York is short of lobsters. They are now being imported from Africa, according to the New York Herald. The National City bank. Cloth mills also are importing wool from Iceland. Of the \$5,000,000 worth of eggs imported since the war began, China sent \$2,000,000 worth.

Weeks Lecture Program—UC

TONIGHT.

101 California Hall—Dr. H. C. Bryant, "Methods of World Life Conservation," 8 a. m.

212 Wheeler Hall—John P. Forbes, "Cost Accounting," 7:30 p. m.

Wheeler Hall Auditorium—Concert by members of classes of George Bowden, lecturer in voice culture, 8 p. m.

THURSDAY.

101 California Hall—John B. Selandar, "Advertising," 7:30 p. m.

112 California Hall—John B. Selandar, "Wheeler Hall Auditorium—Cecil Forsyth, "Greek Theatricals in Music and the Greek Musical System," 8 p. m.

FRIDAY.

Wheeler Hall Auditorium—Miss Katherine Jewell Everts, reading of "My Lady's Ring," by Alice Brown, 8 p. m.

Lecture room, Pathology building—Dr. A. L. Hagerdorn, "The Course of Evolution," 4:30 p. m.

Philosophy building—Prof. Charles H. Riebert, "The Platonic Logic," 8 p. m.

Wheeler Hall Auditorium—Miss Katherine Jewell Everts, reading of "Brunelleschi," by John Galen Howard, 8 p. m.

TO SUPPRESS STRIKES

The anti-strike movement in Germany was discussed at a meeting of the Reichstag auxiliary service committee at which Count Westary, leader of the conservatives, welcomed the new German government. He further attempted to interfere with munitions work would be ruthlessly suppressed. Count Westary insinuated that money had played a part in the strike movement. He charged a minority of playing the game of Germany's enemies. He denied that the trouble was caused by lack of food.

MOONTY CASE CITED

The home chicken-raising industry also has been installed in many residential lots.

MARKET DIRECTOR SCORED BY SOLON

SACRAMENTO, April 25.—The Assembly cleared for action on the Luce market commission bill shortly before noon today. Harris of Fakersburg was spokesman for the measure, which was introduced at the request of the State Market Director Harris Weinstein, and passed by the Senate.

Barlett of Los Angeles, an opponent of the bill, introduced an amendment directing the market director to confine his activities in organizing producers "within the limits of the Sherman anti-trust law."

This amendment was originally suggested to Weinstein by Marks of San Francisco. Marks had been selected to support the bill in the Assembly. Its rejection by the market director caused a break between the two. Marks today opposed the Luce bill.

"The market director should be prevented from organizing producers in violation of trust. He has dedicated himself to organizing producers to raise prices to consumers in California," Barlett said.

Ryan of San Francisco declared that labor supports the new market commission act.

WILL HEAD LODGE

FRESNO, Cal., April 25.—Mrs. Rose Illia of Fresno was re-elected state chief of the Order of Honor Lodge at the closing session of the third annual state convention here today. The next meeting place will be chosen late this afternoon. Forty-seven lodges were represented. Other state officers elected to office were: Mrs. L. L. Hill, president; Mrs. George, State Lady of Honor; Mrs. Adella Rook, San Francisco, state recorder; Mrs. Katie Collins, Fresno, past state chief; Mrs. Marie Ford, San Francisco, outer watch; Mrs. Roxie Pollard, Los Angeles, assistant outer watch; Mrs. Heath, Bakersfield, chief of ceremonies.

TYPISTS WANTED

In view of the urgent demand for qualified male typewriters for employment in the military departments in San Francisco and vicinity, the Civil Service Commission will hold examinations every Tuesday for local positions.

Examinations will be held at the same time for positions of stenographer and typewriter in the departments at Washington, D. C. Both men and women will be admitted to the examinations for employment in Washington.

The Emporium

Down-Stairs Store

This 4-X Friday in the Down-Stairs Store will be remarkable for many reasons. One of which is a whole shoe store which has been taken to the Emporium—stock and boxes. The shoes are present-day styles in better than present-day leathers. Prices throughout all the sales are such as you can expect of 4-X Friday

BURNING SHIP SAFE IN PORT

SAN FRANCISCO, April 25.—Despatches from Eureka early today indicated that the wooden steam schooner Coronado, which caught fire off Humboldt bay last night, would be brought safely into port today and that the fire had been put under control.

The crew was taken off by the Hoquiam.

Fire started in the engine room at 11:45 this morning, according to a radio message received at the Table Bluff station. It spread so rapidly that the crew was forced to abandon the ship at once.

The steam schooner Hoquiam arrived at 1 p. m. and took the crew on board. The Hoquiam got a line on the burning schooner.

The deckhouse was completely destroyed, according to the latest report, and the lumber cargo was burned.

The steamer Northern Pacific and the Standard Oil tanker Atlas answered the call for help from the Coronado. They passed on after finding out that every man, woman and child was safe and the Hoquiam standing by.

PLANT POTATOES

LIVINGSTON, Mont., April 25.—All station grounds, parks and flower gardens on the Northern Pacific line will be needed to produce potatoes and vegetables, according to an announcement made here today by George T. Slade, first vice-president, and Hazen J. Titus, superintendent of the dining car department. The latter instructed managers of all lunch counters along the line to take personal charge of the garden work.

ACROBAT INJURED

COLUMBUS, O., April 25.—Jack Treville, 24, Los Angeles, acrobat, is in a critical condition today as a result of injuries about the head, received at Keith's theater here last night when he fell from an inclined plane on which he was sliding into a tank of water.

The Last Word in Player-Piano Perfection

When you wish it to be so, this instrument is entirely automatic. It is pumped electrically and controlled pneumatically. But there is nothing mechanical about the quality of its performance. That holds the very soul of music itself. It plays better than any pianist alive, except a few of the very best, and it plays exactly as well as those few, because it reproduces accurately their actual interpretations. It is

The Solo, Electric Apollo Player-Piano

—the very last word in player-piano perfection.

For dancing, or for the entertainment of guests, or for your own enjoyment and convenience, it will play all by itself and without requiring any attention at all. If you desire to make your own interpretations the automatic devices can be shut off, and the instrument then becomes hand-operative, with all the superiorities that distinguish the Apollo Player-Pianos in general.

OWNERS OF GRAND PIANOS:
There is an Apollo Electric Cabinet Player which can be connected with your piano. Invisible, wonderful in results. Come and see!

The Wiley B. Allen Co.

1209 WASHINGTON STREET, OAKLAND.
Stores also in San Francisco, Sacramento, San Jose, Los Angeles, San Diego and Portland.

'MOTHERHOOD' IS SEEN IN FILMS

Bearing its message that the Nation's future for war or peace is in the hands of the babies, and making a plea that they be trained strong in mind and body, "Motherhood" is being given at the new T. & D. Theater at morning matinees this week. The film is presented under the Baby Hygiene Committee of the California branch of the Red Cross. It is the contribution toward the national convention of Social Agencies, now in session in Oakland. Previously it has been shown in San Francisco, Huntington and San Mateo.

Several hundred mothers, delegates to the convention, and college women filled the theater, which has opened its doors for the first time it was presented this morning. The interest which was manifested in the cinematic "do's" and "don'ts" of the babies in the flesh which laughed and cried, wiggled and squirmed its length, promised even a greater attendance during the closing days of the season.

"Motherhood," in a popular, interesting and admirable way takes up the story of the making of the perfect child and the mistakes which go into the evolution of the miserable one. Pre-natal care, feeding, clothing, sleep, disease, all come in for a full share of study.

"Do not toss baby. Do not kiss baby. Give baby a fair deal." Here

Nothing Like It On the Market

For Colds in Head, Nasal Catarrh, Catarrh Headache.

One simple test will convince you.

Benetol CATARRH JELLY

absolutely without equal, pleasant and effective. The only powerful antiseptic and germicidal, catarrh jelly ever offered.

Sold at all druggists in 25 cent tubes, packed with full directions in Red Cartons. Try it.

Women in Row Over Votes Political Turmoil Rages

The dove of peace which was wont to hover over the destinies of the Oakland Federation of Mothers' Clubs, permanently or otherwise, has flitted away. The ranks of the opposing armies have been recruited to their maximum strength and the tempest in the tea pot has become a raging fire. The cause is political, with the unique situation that all are agreeing upon the same regular ticket which was framed at the April session yesterday. What the next month will bring forth, before the candidates are safely elected, is a matter upon which none are willing to offer an opinion.

The Oakland Federation of Mothers' Clubs met yesterday afternoon in the High School building. The announcement that candidates for office would be elected from the floor to serve the coming twelve months brought out a full representation. Several women had been mentioned as the successors to Mrs. E. B. de Rome, who refused to accept a second term as president. A contest was confidently expected. But a ticket was framed without opposition. It follows: President, Mrs. J.

is the gospel of the several reels which found in San Francisco its setting.

Mrs. Norman Livermore of San Francisco is chairman of the committee which is offering to the mothers of the country the latest findings in science directing the care of their babies.

"Motherhood" will be given again tomorrow and Friday mornings.

BIRTHS

TAKAKA—April 18, to the wife of Takaka, a daughter.
BARTON—April 22, to the wife of Kewatah Beto, a son.
TORIGOE—April 19, to the wife of Yasutaro Torigoe, a son.
HODGE—April 21, to the wife of Malcolm Hodge, a daughter.
BRESCH—April 23, to the wife of Corbino Bresch, a son.
TERRA—April 19, to the wife of Joseph Terra, a son.
LILEY—April 23, to the wife of Edward J. Liley, a son.
RUDSON—April 21, to the wife of John Rudson, a son.
OEDDIE—April 12, to the wife of John Geddis, a daughter.
SWIFT—April 24, to the wife of Ralph Swift, a son.
YENLEY—April 16, to the wife of William O. Yenley, a son.
PAPAS—March 9, to the wife of Antonio Papas, a daughter.
PITTA—March 27, to the wife of Augusta G. Pitta, a daughter.
TONNETTE—April 23, to the wife of J. Tonnette, a daughter.

George Short; vice-president, Mrs. C. S. Biers; recording secretary, Mrs. A. E. Thurston; corresponding secretary, Mrs. George Gordon; treasurer, Mrs. F. C. Evans; Mrs. Grace Cole; auditor, Mrs. C. T. Gifford; historian, Mrs. W. E. Leber. The meeting adjourned to the corner of Twelfth and Broadway.

Voices waxed high and shrill. Crowds waited to take the inevitable way to San Francisco gathered round.

"It's nothing but factional politics," shouted one irate mother.

"You are standing for this ticket yourself," accused the accused.

"I was, and I was going to nominate Mrs. Short myself. But you are a catapaw for those who have always lurked around, saw you whispering, retaliated another."

"You are a liar," shouted the next one.

And the war was on. However, the police did not interfere, and little by little the voices lowered and the crowd dispersed.

Mrs. F. C. Evans, who will find an opposing candidate in Mrs. Grace Cole for the office of treasurer, was among those who were mentioned for the presidency.

The election takes place on Tuesday, May 15, when it is more than likely the battle will be carried to the floor of the Federation.

GUNS FOR PATROL

WASHINGTON, April 25.—Orders for 2,500 Lewis machine guns with which to equip motor patrol boats have been placed with the Savage Arms Company by the navy department, it was announced today.

MARRIAGE LICENSES

FAIR MACCABEES HOLD RALLY HERE

The annual two-day rally of the Woman's Benefit Association of the Maccabees, which has drawn more than 500 delegates from various parts of the central and northern portions of California, opened at the Hotel Oakland this morning. An elaborate program has been prepared for the five sessions which will form the main events of the convocation.

The guests of honor are Miss Frances D. Partridge, supreme recorder, and Mrs. Minnie W. Aydelotte, grand commander, both of whom will be tendered complimentary luncheons by the local chapter. Uniformed drills and inspections by the branches from Chico, Santa Rosa, Stockton and other points represented will take place today and tomorrow as parts of the convention and rally work.

WOULD OSTRACISE FOOD SPECULATOR

Advocating complete ostracism of the food speculator and prevention of provision price juggling, P. E. Cumberston, president, and general manager of the William Cluff grocery supply firm, spoke to 150 members of the Alameda County Retail Association last night at their regular monthly meeting.

Cumberston advocated adjustment all along the line from manufacturer to the ultimate consumer. The title of his talk was "The Present Food Situation and How to Meet It." He advanced the theory that if manufacturers refused wholesalers and jobbers unusually large amounts of food supplies, no possibility existed for speculation on the food market. If manufacturers sold to wholesalers and general supply firms just enough foodstuff to fill demand, if whole-

GRAND JURY IN CHICAGO TO PROBE PRICES

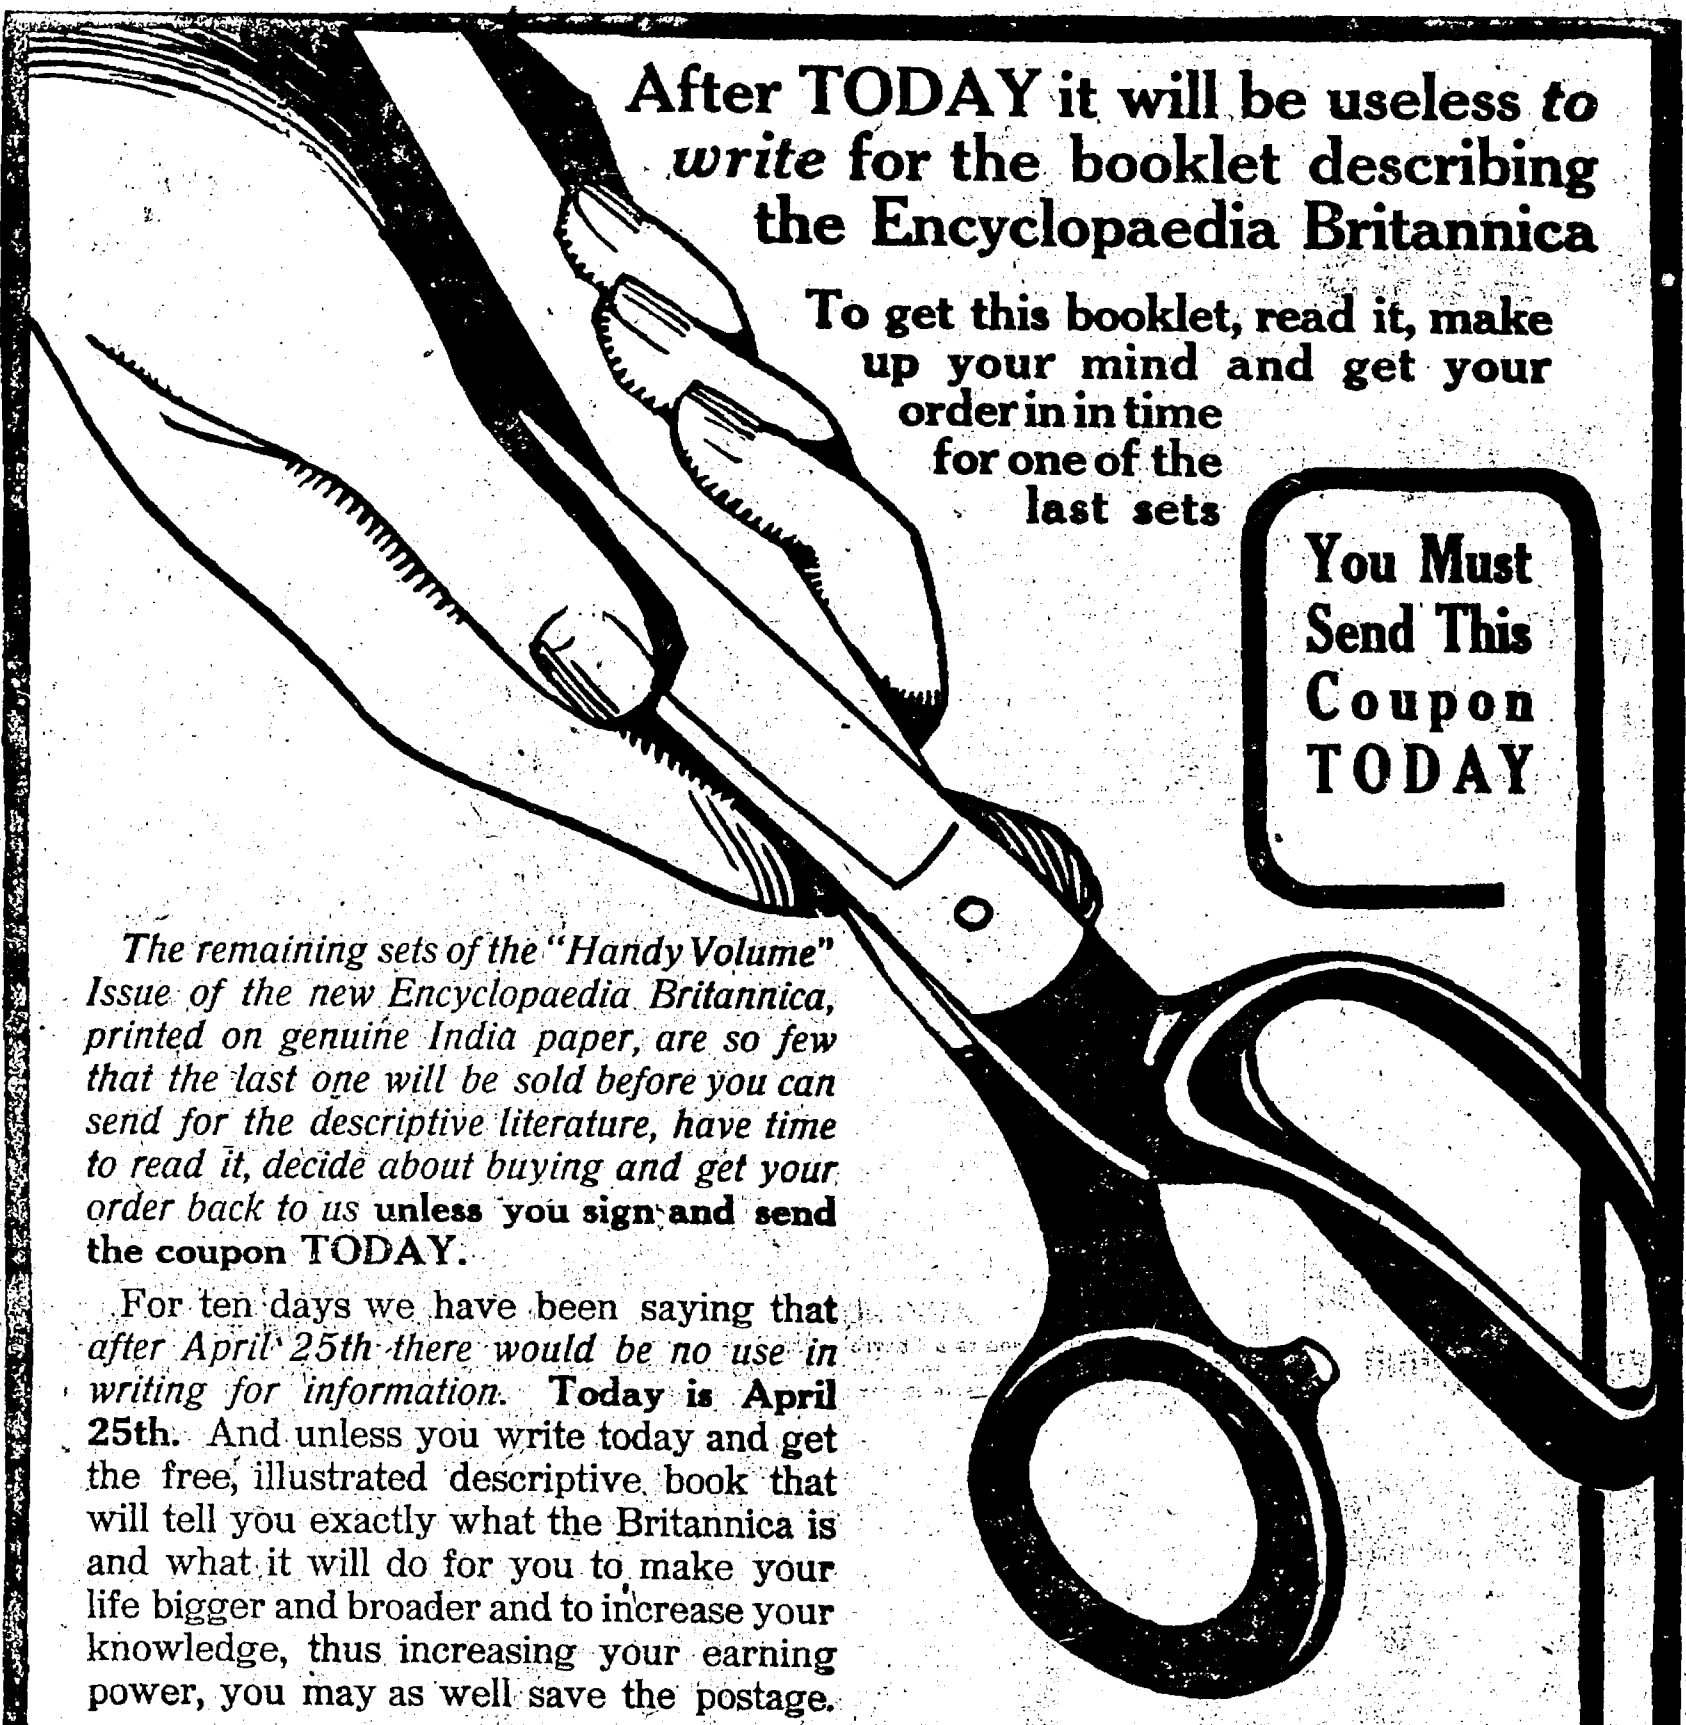

CHICAGO, April 25.—Following the statement made yesterday, that approximately \$5,000,000 announcement was made today eggs were on the tracks here, that grand jury investigations into the storage of eggs and manipulation of prices had been put in motion by United States District Attorney C. F. Olyne. Evidence as to the manipulation of prices has already been gathered. Eighteen million eggs are said to have been shipped into Chicago over one road yesterday and are being held here for re-consignment to Eastern cities.

Wholesalers usually big orders from retail grocery stores, and if retailers refuse abnormal sales to housewives, Cumberston believes that a food crisis will be averted. The meeting was held in Castle Hall, 387 Twelfth street. Out of a total membership of 200 grocers in the county, 150 were present.

SPY BILL TO CARRY AN AMENDMENT

WASHINGTON, April 25.—The amended espionage bill, upon which the House judiciary committee has been at work almost daily since Congress convened, was reported to the House today by Chairman Webb. The principal change in the bill is that relating to press censorship. The committee has eliminated altogether the original provision which would have prohibited editorial or newspaper discussion, comment or criticism of governmental policies. Instead the press gag is limited solely to disclosing military secrets.

No time has been set for consideration of the bill in the House. Debate probably will begin next week, present prospects being that the army bill will occupy the attention of the House throughout the rest of this week.

After TODAY it will be useless to write for the booklet describing the Encyclopaedia Britannica

To get this booklet, read it, make up your mind and get your order in in time for one of the last sets

You Must Send This Coupon TODAY

The remaining sets of the "Handy Volume" Issue of the new Encyclopaedia Britannica, printed on genuine India paper, are so few that the last one will be sold before you can send for the descriptive literature, have time to read it, decide about buying and get your order back to us unless you sign and send the coupon TODAY.

For ten days we have been saying that after April 25th there would be no use in writing for information. Today is April 25th. And unless you write today and get the free, illustrated descriptive book that will tell you exactly what the Britannica is and what it will do for you to make your life bigger and broader and to increase your knowledge, thus increasing your earning power, you may as well save the postage.

We want no one to order a set of the "Handy Volume" Britannica unless he knows it will be useful to him.

To know, you should have the book that tells about this wonderful work. After today it will be folly to write for it and folly for us to send the literature to you because the last set will be sold before you can study the information and get your order in.

To write for this information and thus have an opportunity to know just what the Britannica will bring into your life in the way of practical help for everyday problems and answers to every question concerning your work is the most worth-while thing you can do today.

Very shortly we will announce the date of the last day we can accept orders for the Britannica. Our stock is almost exhausted. When sets on hand are sold your chance is gone forever.

We could easily sell many thousands more sets if we could get them. But we cannot get even one more set. This is not our fault nor the publishers'. They cannot get any more genuine India paper at any price. No more can be made because two important raw materials—flax from Belgium, Germany or Ireland and hemp from Russia—are absolutely unobtainable and there is no substitute for them.

Whether you have been considering buying

the Britannica or not, send for the descriptive booklet today. Learn what the Britannica is. Give this immediate thought so that later on you will have no cause to say, "I wish I had known what a wonderful work the Britannica is in time to have ordered a set."

Put everything else aside for one moment. Sign the attached coupon and get it into the mail NOW while you are thinking about it.

Thousands of persons are going to be disappointed when this sale closes, and those people will be the ones who, while really wanting the Britannica, fail to realize that now is the time to decide and get their orders in.

Note this—the set (29 volumes) is yours to use and profit by while you are paying for it. You only have to send \$1.00 with order, to be followed by monthly payments of \$3.00 (for the cloth binding) for a limited number of months.

You can see sets of the Britannica and leave orders at:

KAHN'S

Broadway-16th-San Pablo

SEARS, ROEBUCK AND CO., Chicago, Ill.

Gentlemen:

Please send me at once your free illustrated, descriptive booklet about the "Handy Volume" issue of the new Encyclopaedia Britannica, printed on genuine India paper.

I want this so that I can learn whether the Britannica will be useful to me in my work and my home, so that I can decide before all the remaining sets are sold whether or not I want to buy.

Send me full information as to the smallest monthly payment I will have to make for one of these remaining sets; also the lowest cash price.

GETS NO VOTES

BERKELEY, April 25.—Mrs. Elvina S. Beals introduced in the school board meeting last evening, a resolution calling on the United States government to provide food supplies for 10,000,000 in want of this country and asking that the war tax be levied on incomes in excess of \$5000. The resolution was not seconded. At a recent meeting of the board Mrs. Beals did not vote on a resolution endorsing President Wilson's stand. Her resolution of last evening supplemented this. It also provided for nationalization of transportation, mining, munition plants, for the financing of the war.

Alameda American League Elects Hauch Chairman

ALAMEDA, April 25.—The Alameda American League, through its general committee of 100, endorsed last night compulsory military training, and word to this effect will be dispatched to the California representatives in Congress. The league decided to ask Representative Arthur G. Euston to assist in curbing the rising prices of foodstuffs. R. K. Taylor objected to the motion saying that prices were certain to rise still higher and that a protest from Alameda would appear ridiculous. The motion was supported by City Clerk R. E. Bosshard, Henry Rosenthal and, in part, by the chairman, Halvor Hauch. Hauch stated that while prices were high and sure to go higher, money would also be more plentiful than ever before. He thought the hardship of soaring prices would be overcome in part by the plentifulness of money. The election of Hauch as permanent chairman of the league was the most dramatic happening of the meeting. For several weeks Hauch has been subjected

to unsupported charges and rumors that he was unfavorable to America and a staunch supporter of Germany. The reports even included that he had been interviewed by secret service men and even placed in restraint. So widespread grew these rumors that Hauch issued this week a clear-cut statement showing that he is a native of Denmark, that he became an American citizen as soon as possible after coming to America and that he was now and always has been a staunch supporter of President Wilson and all of the President's policies. The statement was backed up with numerous letters and telegrams passing between Hauch and the President's secretary, Joseph Tumulty, the letters and wires from Hauch invariably endorsing the President's stand on different national matters and pledging unvarying support and loyalty from the Alamedans. Hauch was the only man nominated for the chairmanship last night. He was overcome by the unexpected compliment, and in a short speech of thanks expressed his loyalty to the United States.

SLAIN AS AGENT TO HOLD TESTS

DOUGLAS, Ariz., April 25.—Trinidad Moreno, aged 32, a Mexican citizen employed in Douglas as a clerk, was executed Monday by a firing squad in Agua Prieta, Mexico, after his conviction before a military court on the charge of being a Villa recruiting agent. Moreno and his employer, A. Robinson, were accused to solicit patronage for their store at the Nacozari railroad depot in Agua Prieta. While engaged in this pursuit Monday morning Moreno was arrested. Agua Prieta officials said today the prisoner was given a trial, at which he was convicted of being a recruiting agent. He had been active in recruiting men for the band of Tomas Rosas, which recently crossed the border near here and announced itself for Villa. They also said a letter from Rosas relative to recruiting work was found in his pocket and that the accused finally acknowledged his guilt. Friends of Moreno asserted that he was the victim of a conspiracy.

SEEK AGITATORS

LITTLE ROCK, Ark., April 25.—Reports received here indicate that agitators, supposedly German agents, have been seeking to stir up dissatisfaction among negroes in Southern Arkansas. At Hampton, Calhoun county, a negro was killed the public whipping of a negro who was said to have insulted a white woman. Sheriff C. V. Abbott, at Hampton, reported that several negroes told him that white men had urged them to kill all the white people and promised that Germany would reward them.

TO HOLD TESTS

The United States civil service commission announces that the examinations listed below will be held in San Francisco at an early date. Printer (male) \$1200 per annum, post office, San Francisco, Cal. Assistant in plant introduction (male) \$1200 to \$1400, one vacancy at Yarrow, Maryland, and one at Chico, California, and future vacancies throughout the United States. Junior chemist, qualified in fuels (male), \$1020 per annum, bureau of mines, Washington, D. C. Fireman (male) \$550 per annum, bureau of standards, Washington, D. C. Lithographic pressman (male) \$4 per diem, bureau of engraving and printing, Washington, D. C. Architectural assistant in forest products (male) \$1500 year, forest products laboratory, Madison, Wis. Marine fireman \$55 per month and subsistence, engineer department at large, San Francisco. Specialist in dairy cattle breeding (male) \$2500 to \$3000 year, bureau of animal industry, department of agriculture. Junior laboratory helper (male) \$450 to \$540 year, bureau of standards, department of commerce, Washington, D. C. Third grade examination (scientific) San Francisco, Cal. \$540 year. Landscape architect (male) \$2400 year, office of public buildings and grounds, engineer department at large, Washington, D. C. Application blanks and further information relative to these examinations may be obtained from the secretary, twelfth civil service district, room 241, post office.

EVERYBODY HAS CHANCE FOR CAR

"That is some car," said A. M. Cohen as he took a survey of the Chevrolet automobile that The TRIBUNE had presented to him at the Orpheum Theater Monday night, "and it is some paper that I got it just about the right time from the looks of the weather, and I am going to take advantage of it all believe me."

CASE OF PURE LUCK.

"It was a case of pure luck, and the more I think about it the more I wonder I didn't have two dozen shares in the box, and to win a machine worth \$235 certainly is luck."

The experiences of Cohen are proof of exactly what The TRIBUNE has been telling its readers for six weeks. The TRIBUNE wants everybody to have a fair show to get one of these automobiles. The TRIBUNE has told, time after time, how everybody has a chance. The case of Mr. Cohen shows that.

When you buy an Orpheum ticket for any performance during the week, except for the performance at which the drawing is held, a "stock dividend" of five shares for each ticket is given. This is a special arrangement that has been made between The TRIBUNE and the Orpheum Theater.

NEW BALLOON OF TADPOLE'S SHAPE

PARIS, April 24.—Among the latest triumphs of the French aerial service is a new observation balloon, known as Le Caquot. At the beginning of the war observers other than those in aeroplanes utilized kite balloons of the German Drachen type, called by the French soldiers "sausages." There are still some of these at the front, but Le Caquot is much preferred. In shape it resembles a great tadpole. Whereas the Drachen is inconveniently by a wind of from 50 to 55 feet a second, Le Caquot can remain in the air unless the wind exceeds 65 to 75 feet a second.

Do You Require Two Pairs of Glasses?

Those who need different glasses for reading than for distance will appreciate the new "Caltext" lens, which combines the two in one, thus doing away with the necessity of changing—no lost motion. Wearers of "Caltext" lenses enjoy greater eye comfort than they have ever experienced. It can truthfully be said that "Caltext" glasses are the highest in efficiency ever reached—this is the judgment of expert minds, as well as those wearing them. The California Optical Company manufacture these wonderful lenses at their three establishments, 1221 Broadway, Oakland; 181 Post St. and 2508 Mission St., San Francisco.—Advertisement.

FIRE IS CHECKED

BUTTE, Mont., April 25.—Flames which last night swept the Modoc shaft of the Anaconda Copper Mining Company here had been confined to that shaft, and it was believed there was no further danger of the fire communicating to the levels to any extent. Mining operations have been suspended in the High Ore Mine of the Anaconda Company, the North Butte Company's Speculator Mine and the Ballaklava Mine of the Butte-Ballaklava Company until the workings of those properties are free from gas, which will be within a few days.

The Modoc shaft had been used for lowering men and supplies into the High Ore Mine, no ore being hoisted through

PLAN PROGRAM

SALT LAKE, Utah, April 25.—The program for the annual conference of state and county home economics workers for the eleven Western States, to be held at the Utah Agricultural College May 2, 3 and 4, has just been announced by the committee in charge, consisting of Prof. John T. Calne III, director of the extension division of the Utah Agricultural College; Prof. Gertrude McChesney, in charge of the extension work in home economics for Utah, and Miss Florence E. Ward, representing the United States Department of Agriculture.

COTTON MEETING

BOSTON, Mass., April 25.—The two-day annual meeting of the National Association of Cotton Manufacturers started here at the Copley-Plaza Hotel today. Among the speakers will be John P. Wood, president of the National Association of Wool Manufacturers; Albert W. Finley, president of the United Typographical Union; Walter E. Packard of the University of California, and John A. Stevens, engineer.

For Tired School Children

Boys and girls who have been bending over their desks for weeks and months, and often studying at home late into the night, get into a weak, nervous, run-down condition, and wise mothers will take the advice of our local druggists, The Owl Drug Co., and give such children Vinol, because it is a non-secret preparation which contains the oldest and best tonics known, and is guaranteed to strengthen and restore health to weak, overworked, run-down people, and to cure chronic coughs, colds and bronchitis, or you can get your money back.—Advertisement.

An Excellent Remedy for Coughs and Colds.

You will look a good while before you find a better preparation for coughs and colds than Chamberlain's Cough Remedy. Mrs. George Bryant, Charleston, Ill., in speaking of this preparation, says, "My husband caught a hard cold that lodged in his lungs and he coughed terribly. A neighbor advised him to try Chamberlain's Cough Remedy. He bought a bottle of it at the drug store and the first dose relieved him. Before he had taken the contents of the one bottle his cough and cold had entirely disappeared." For sale by Osgood Bros. Drug Stores.—Advertisement.

H.P. SAUCE

—the favorite thick sauce of England—the land of sauces—makes the zestful crab more zestful still. Try a few drops with hard shell or soft shell crabs and crab salad. And by all means try an H.P. Crab Cocktail. D-e-l-i-c-i-o-u-s!

Ask your grocer for the one and only H.P.—order it when dining out.

FATIMA

A Sensible Cigarette

Such men seek smoke-comfort

WHEN YOU stop to realize the number of sound, conservative men who have changed over to Fatimas in the last six months, it surely indicates that Fatimas must offer something no other cigarette can offer.

Perhaps you haven't thought of it this way:

Do you know any other cigarette that is always cool and comfortable? Do you know any other cigarette beside Fatimas that leaves a man feeling fine and "fit" even after a long-smoking day?

It is these qualities that make Fatimas truly sensible.

Oakland Chapter of the American Red Cross will benefit from an entertainment to be given by the Home Club Thursday evening, May 3. The program will be given by the club devoted to a performance of "Mother Goose" in living pictures, with musical accompaniment and the singing of old-fashioned songs. Miss Helen Brown and Miss E. J. Brown will have charge of this part of the entertainment. Dancing will follow, music for which will be furnished by Ansonia. The program will be given by Ansonia pianist. Several dancing parties will be held preceding the entertainment.

Patronesses for the affair are Mrs. J. B. Crosby, Mrs. J. B. Regan, Mrs. A. B. Heron, Mrs. T. C. Coogan

Indigestion and Biliousness.
You should not eat food of any kind when bilious, but take a few doses Chamberlain's Tablets and drink pl of water. That will cleanse the stom move the bowels and soon restore the tem to a healthy condition. By the lowing morning you can eat sparingly dry crusts of bread, vegetables and fruits, but should eat no meat until next day. "I have found Chamberl Tablets splendid for indigestion,"

And so, like two extremely good friends, they put away temptations and closed the door of the jam-clothed door.

later, you can cleanse the system by moving the bowels and soon restore them to a healthy condition. By the following morning you can eat sparingly, dry crusts of bread, vegetables and renals, but, should eat no meat until next day. Mrs. Wm. J. Tillman, P. Ill. says, "I have found Chamberlain's Tablets splendid for indigestion, head and bilious attack." For sale by C. Bros. Drug Stores.—Advertisement.

BOUND TO HIGH COURT FOR DEATH

Frank H. Lottman, who ran down and killed Alvin C. Gillem, police officer, on April 12, at Sixteenth street and San Pablo avenue, was today held to answer in the Superior Court by Police Judge Mortimer Smith, who fixed his bail at \$20,000, cash or bonds, and the charge as manslaughter.

Lottman was originally charged with murder. This was reduced by Judge Smith. In fixing the heavy bail the court made findings to the effect that Lottman was intoxicated at the time he drove his automobile into Gillem, killing him instantly.

LEAGUE CONVENES

PITTSBURG, April 25.—With several hundred delegates in attendance, the four-day convention of the Dramatic League of America started here today. The league now has 24,000 members and 60 branches, it was announced. Among the speakers at the convention will be: William Norman Guthrie, New York; William Lyons Phelps, Yale University; Stark Young, Amherst College; S. H. Clark, University of Chicago; Archibald Henderson, University of North Carolina; Benedict Papot, Chicago; Philip D. Sherman, Oberlin College; Mme. Yvette Guilbert and Alice Minnie Herts-Heninger, of New York, and Mrs. Otis Skinner, of Philadelphia.

S. P. OFFERS CROPS

Farmers may help themselves to the volunteer crops of hay, barley and oats on the Southern Pacific right-of-way in California and Oregon, Vice-President and General Manager W. L. Scott announced today.

Scott estimates this adds about 12,000 acres to the crop producing area of the two states.

Besides this, Scott sent a circular to all section men, urging them to plant truck gardens on company property wherever possible. He figured 25,000 acres are available for this purpose.

Many Enlist for Service In Army; Record Is Set

Officers Reserve Class to Be Taught at Technical High School Armory

That Alameda county youths care nothing for Congressional action on the draft bill and are volunteering their services to their country in record numbers, is the gist of statements issued by recruiting officers today. The army enlistments bureau leads all of the other services today in recruiting figures.

According to Sergeant Edward Kinzel, head of the local office, Oakland sub-district has supplied Uncle Sam's land force with fifteen recruits since Saturday. Out of this number 9 Oakland and Alameda county youths were accepted Saturday and 6 yesterday. For the first two 16-day periods of April, 51 men were enlisted in the United States army by the local recruiting party—a record number, which, when augmented by the 15 enlisted yesterday, brings the April total to 66.

The entire district, which includes all of California to Eureka, provided the army with 524 enlistments during the first 20 days of the month. This is a record that no other district has ever attained. The former maximum figure amounted to 633 during one month in 1914. According to local officials, the latter figure should be doubled before April has become history.

URGES CO-OPERATION. Lieutenant Colonel John H. Gardner, head of the western district, recruiting service, has issued an appeal to postmaster, asking nearer co-operation in enlisting youths from the rural districts. Nowhere in the northern or central portion of the State has the record of enlistments been approached. The district presented 35 recruits this month to the main San Francisco office—all obtained through postoffice enlistment work. Martinez, however, turned three enlistments into the local office Saturday. He said that the army is leaving no stone unturned for concentration of all its resources is the statement issued from the office. He said that the army is residing in Oakland, had been called into active service. The men will be placed under physical examination and then assigned to branches of the service with which they were formerly associated. In an effort to stimulate Oakland patri-

otism still further, Sergeant Kinzel has planned another pilgrimage by Uncle Sam through downtown streets tomorrow during the luncheon hour. With banners, literature and enthusiasm the army recruiting forces will carry their drive to Oakland's business men.

The navy recruiting office reports an average of 2 enlistments a day, while the main office is accepting unusual physical and mental specimens at the rate of one a day.

A NEW TRAINING SCHOOL. A reserve officers' training class was organized at the Technical Evening High School last evening.

No one will be accepted unless he is able to pass a physical examination which will be given free of charge under the supervision of Dr. Foster of the school department.

There will be no charges except for such instruction books and manuals, as students may care to buy.

The purpose is to offer an opportunity for capable men in secure commissions who cannot attend the three months' training camp at the Presidio. This is not a military company, but solely a training school for volunteer officers. The class will meet regularly on Monday, Wednesday and Friday evenings from 7 to 9:30.

WOMEN WILL BE ON DEFENSE BOARD

WASHINGTON, April 25.—American women are to have representation in the war councils of the nation.

A committee of women to be known as the "committee on women's defense work," was created today by the council of national defense to co-operate in bringing about the full assistance of American women in the prosecution of the war. Official announcement of the appointment of the committee was made today.

Dr. Anna Howard Shaw, the veteran suffrage advocate, is named as chairman.

The announcement by the council was as follows:

"Realizing the inestimable value of woman's contribution to national effort under modern war conditions, the council of national defense has appointed a committee of women of national prominence to consider and advise how the assistance of the women of America may be available in the prosecution of the war. These women are appointed as individuals regardless of any organization with which they may be associated. The body will be known as the Committee on Woman's Defense Work. Its membership follows:

Dr. Anna Howard Shaw, chairman; Mrs. Philip N. Moore of St. Louis, president of the National Council of Women; Mrs. Josiah E. Cowles of California, president of the General Federation of Women's Clubs; Miss Maude Wetmore of Rhode Island, chairman of the National League for Women's Service; Mrs. Carrie Chapman Catt of New York, president of the National Woman's Suffrage organization; Mrs. Antoinette Funk of Illinois; Mrs. Stanley McCormick of Boston; Mrs. Joseph R. Lamar of Atlanta, Ga., president of the National Society of Colonial Dames; Miss Ida M. Tarbell of New York, publicist and writer.

LIFTING EMBARGO

A partial lifting of the embargo on east-bound freight is announced today by the Southern Pacific Company. Prohibition of freight movements to New York via the Sunset-Gulf route ceases today, but the embargo still exists for perishable wares or goods for export on through bills of lading. Goods for transportation beyond New York to Atlantic seaboard points over connecting lines still holding embargoes do not come under the freeing edict. Within seven days, the Southern Pacific announces, all war risk will be assumed from Galveston in the railroad's rates for east-bound shipments moving over the gulf route.

KAHN'S KAHN'S Sale THURSDAY, 9 A. M. KAHN'S KAHN'S

I am Sincere! Stop Calomel!

I Guarantee Dodson's Liver Tone

Listen to me! Calomel sickens and you may lose a day's work. If bilious, constipated or headachy read my guarantee.

Live up your sluggish liver! Feel fine and cheerful; make your work a pleasure; be vigorous and full of ambition. But take no nasty, dangerous calomel, because it makes you sick and you may lose a day's work.

Calomel is mercury or quicksilver which causes necrosis of the bones. Calomel crashes into your bile like dynamite, breaking it up. That's when you feel that awful nausea and cramping.

Listen to me! If you want to enjoy the nicest, gentlest liver and bowel cleansing you ever experienced, just take a spoonful of harmless Dodson's Liver Tone tonight. Your druggist or dealer sells you a 50-cent bottle of

Dodson's Liver Tone under my personal money-back guarantee that each spoonful will clean your sluggish liver better than a dose of nasty calomel and that it won't make you sick.

Dodson's Liver Tone is real liver medicine. You'll know it next morning because you will wake up feeling fine, your liver will be working; headache and dizziness gone; stomach will be sweet and bowels regular.

Dodson's Liver Tone is entirely vegetable, therefore harmless and can not irritate. Give it to your children. Millions of people are using Dodson's Liver Tone instead of dangerous calomel now. Your druggist will tell you that the sale of calomel is almost stopped entirely here. Advertisement.

ASSEMBLY REJECTS 'JOY RIDING' BILL

SACRAMENTO, April 25.—Passage was refused a bill by Senator Johnson in the assembly last night which sought to provide severe penalties for "joy riding." The bill would have made it punishable by imprisonment of from one month to a year in the county to drive another's car upon a highway, without the owner's consent, with or without the intention to steal the car.

A total of twenty-two Senate bills were passed by the Assembly last night. Among these was Senator Lyon's measure amending the child labor act to broaden its attitude toward children of the stage. It would permit them to have speaking parts. Others passed included:

By Sharkey—Providing for the formation of forest fire districts.
By Purkitt—Validating proceedings in the Princeton-Codora-Glenn irrigation district.
By Jones—Increasing the appropriation of each school district to \$700 per teacher.

HOLD RECEPTION

SACRAMENTO, April 25.—Governor and Mrs. William D. Stephens received the members of the legislature and their wives at the first formal reception of the session. In the receiving line with the governor and Mrs. Stephens were Mrs. A. H. Breed, wife of the president of the senate, and Mrs. C. C. Young, wife of Speaker Young. They were assisted by wives of other legislators and many Sacramento women. The reception was held in the executive mansion.

DANDRUFF MAKES HAIR FALL OUT

25-Cent Bottle of "Dandrine" Keeps Hair Thick, Strong, Beautiful.

Girls! Try This! Doubles Beauty of Your Hair in Few Moments.

Within ten minutes after an application of Dandrine you can not find a single trace of dandruff or falling hair and your scalp will not itch, but what will please you most will be after a few weeks use, when you see new hair, fine and downy at first—but really new hair—growing all over the scalp.

A little Dandrine immediately doubles the beauty of your hair. No difference how dull, faded, brittle and scraggy. Just moisten a cloth with Dandrine and carefully draw it through your hair, taking out small strands at a time. The effect is amazing—your hair will be light, fluffy, and wavy, and have an appearance of abundance, an incomparable lustre, softness and luxuriance.

Get a 25-cent bottle of Knowledge's Dandrine from any drug store or toilet counter, and prove that your hair is as pretty and soft as any—that it has been neglected or injured by careless treatment—that's all—you surely can have beautiful hair and lots of it if you will just try a little Dandrine.—Advertisement.

Try This if You Have Dandruff

There is one sure way that never fails to remove dandruff completely, and that is to dissolve it. This destroys it entirely. To do this, just get about four ounces of plain, ordinary liquid arvon; apply it at night when retiring, use enough to moisten the scalp, and rub it in gently with the finger tips.

By morning, most if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single grain and trace of it, no matter how much dandruff you may have.

You will find, too, that all itching and digging of the scalp will stop instantly, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better. You can get liquid arvon at any drug store. It is inexpensive, and four ounces is all you will need. This simple remedy has never been known to fail.—Advertisement.

SAYS SPOUSE THREATENED TO END OWN LIFE

SAN FRANCISCO, April 25.—Declaring that her husband kept her in a continual state of hysterical anxiety by repeated threats to end his life, Mrs. Loretta Willebrand filed suit for divorce this morning against Edward Willebrand, a building contractor. It was Willebrand's habit, she says, to lock himself in the bathroom, remaining a long time and telling her he was going to kill himself. Last New Year's eve, she asserts, he held a gun to their home and when the guests were assembled, he humiliated her by pointing out a gentleman present and saying to her, "I guess you are a happy now," your sweetheart is here."

TYRRELL ACTS ON HARBOR CHARTER

SACRAMENTO, April 25.—Just what will happen to the measure known among legislators as the "Oakland Waterfront Bill" remains to be determined. There have been several indications here from Oakland and the representations made have varied greatly. However, the bill will not die in committee according to Senator Edward J. Tyrrell, who said today:

"When the proposed Smith Charter Amendment was before the people, as is well known, I was one of the few who publicly fought it. I was opposed to its adoption by the voters of Oakland. I immediately took steps to have a Charter Amendment proposed allowing reference to commissioners without making any progress, but finally with the help of the committee of 15, an amendment of this kind was submitted and approved by the people on April 17."

"On my own initiative I introduced in the Senate a bill limiting the length of leases on the western waterfront to fifty years, and that bill has passed and has been signed by the Governor."

RATIFY AMENDMENT.

"The resolution ratifying the 85-year charter amendment was adopted by the Assembly on March 1 and no one appeared from Oakland to oppose its ratification by the Assembly. It then came to the Senate and was sent to the Municipal Corporations Committee of which I am the chairman. I held it in committee until the people of Oakland voted and adopted a provision allowing a referendum on leases and until my 60-year bill was signed."

"About the only reason urged by the committee of 15 against the ratification of the 85-year amendment is the fact that there may be some doubt as to the right of the city to lease a portion of the land for 25 years without the lease being obliged to spend \$5,000,000 in six years, which, of course, would be an unreasonable requirement to attach to a lease of any 25 acres of land."

OPPOSITE CONTENTION.

"As against this contention of some of the members of the committee of 15 I have the written opinion of the City Attorney of Oakland that the approval of the amendment would not prevent the city from making leases of lots or parcels of the western waterfront lands for periods not exceeding 25 years. I have briefly discussed the matter with Attorney General Webb, and he agrees with the opinion of the City Attorney. I have also discussed this feature of the amendment with many of the lawyers in the Senate and with lawyers who are here on other business, and almost all agree that the City Attorney's opinion is correct."

SENATE PASSES RECLAMATION BILL

STATE CAPITOL, SACRAMENTO, April 25.—After two days of debate, marked at times with much feeling and a great deal of amending and counter-amending, the Senate late last night passed the Gebhart reclamation bill, which abolishes the present reclamation board of seven members and establishes a board of three members, one of whom will draw a salary of \$5000.

The vote on the bill was 33 to 1, the only member voting against it being Claude F. Purkitt of Glenn county, who all day yesterday made unsuccessful attempts to have certain lands in Glenn and Colusa counties excluded from the great Sacramento and San Joaquin drainage district.

The Gebhart bill does these things:

- It changes the size and character of the reclamation board, which has charge of the \$15,000,000 flood control and reclamation project.
- It gives the powers of this board, increasing them in certain ways beyond those granted in the original reclamation act of 1913.
- It establishes the boundaries of the entire drainage district, embracing 1,750,000 acres of land along the Sacramento and San Joaquin rivers.
- It establishes the routes for the by-passes along the Sacramento river, which will carry in excess waters on that river amounting to at times four or five times the quantity which the river itself carries off.
- It provides the machinery for the completion of the flood control project. The Gebhart bill also settles the bitter by-pass controversy by giving the eastern route for the by-pass and giving the farmers in district No. 1 until November, 1919, to build the east levee so that they will not be drowned out when the west levee and the south levee of the Tisdale by-pass is closed.

This time limit was amended back into the bill yesterday after it had been amended out the preceding day.

WILL PLANT FOOD

SAN BERNARDINO, Cal., April 25.—A. B. Miller, head of a large orchard corporation of Fontana, Cal., in a statement here urged owners of fifty thousand acres of young citrus orchards in Southern California to plant food crops between the rows of growing trees.

Thirty-three hundred acres of the corporation's young orchards are being planted to beans, and, according to Miller, there is sufficient room between the trees up to seven years old to raise a great quantity of food-stuffs.

FOR HONEST ADS

"Honest Advertising" was the subject of an address before the advertising bureau of the Oakland Chamber of Commerce at the regular luncheon yesterday, by Samuel Hopkins Adams, magazine and editorial writer, who is making a tour of the United States for the purpose of investigating advertising conditions. Adams complimented the activity of the local organization for its work along advertising and publicity lines.

WOMEN RETAIN JURIES' VICTORY

SACRAMENTO, April 25.—The fact that Governor Stephens was holding a reception to members of the legislature at the governor's residence late yesterday probably saved to California women their legislative victory for the principle of women on juries.

Three times the Assembly sergeant-at-arms ransacked the corridors and committee rooms of the capitol in a search for members, while the chamber was locked up to keep assemblymen away from getting away. Each time the opponents of women on juries failed to get enough votes to win reconsideration of the action whereby Senator Benson's bill was last week passed. Thirty-two of the necessary forty-one ayes had been found for reconsideration, when Frank Smith of Oakland, administration floor leader, declared that the "calls of the house" he dispensed with and the members allowed to go to the reception.

So the anti-feminists, whose leader was Quinn of Eureka, let their efforts at reconsideration drop and the Benson bill now goes to the governor. It was passed by the assembly last week.

Aside from Quinn's reconsideration efforts, the outstanding feature of yesterday's session was the victory of Colonel Harris Weinstein's bill to create a state fish exchange. The victory is taken to presage success for his proposed new market commission act, to greatly increase the powers of the state market director. The vote on the fish exchange bill was fifty-three to eighteen. The

market commission bill may reach a vote tomorrow.

FILMS IN SCHOOLS TO WAIT ACTION

SACRAMENTO, April 25.—In the Senate last night the Lyon visual education bill, which would permit county supervisors to levy a special tax not to exceed one-half per cent on the assessed valuation of property, was passed without debate. It would open the way for the introduction of motion pictures of an educational nature in the public schools.

GEM CARGO LANDS

WASHINGTON, April 26.—A shipment of diamonds, valued at more than \$2,000,000, arrived at an American port today on a Dutch steamship from Rotterdam. The stones are consigned to American dealers.

TO WAIT ACTION

WASHINGTON, April 25.—Employers were advised today by a committee of the Chamber of Commerce of the United States to make no arrangements for dependents of men who enlist until Congress has passed pending army legislation. It was pointed out that if married men and others with dependents are eliminated from the proposed army, the employer's problem would be reduced to a minimum.

SIGNS CONSOLIDATION ACT.

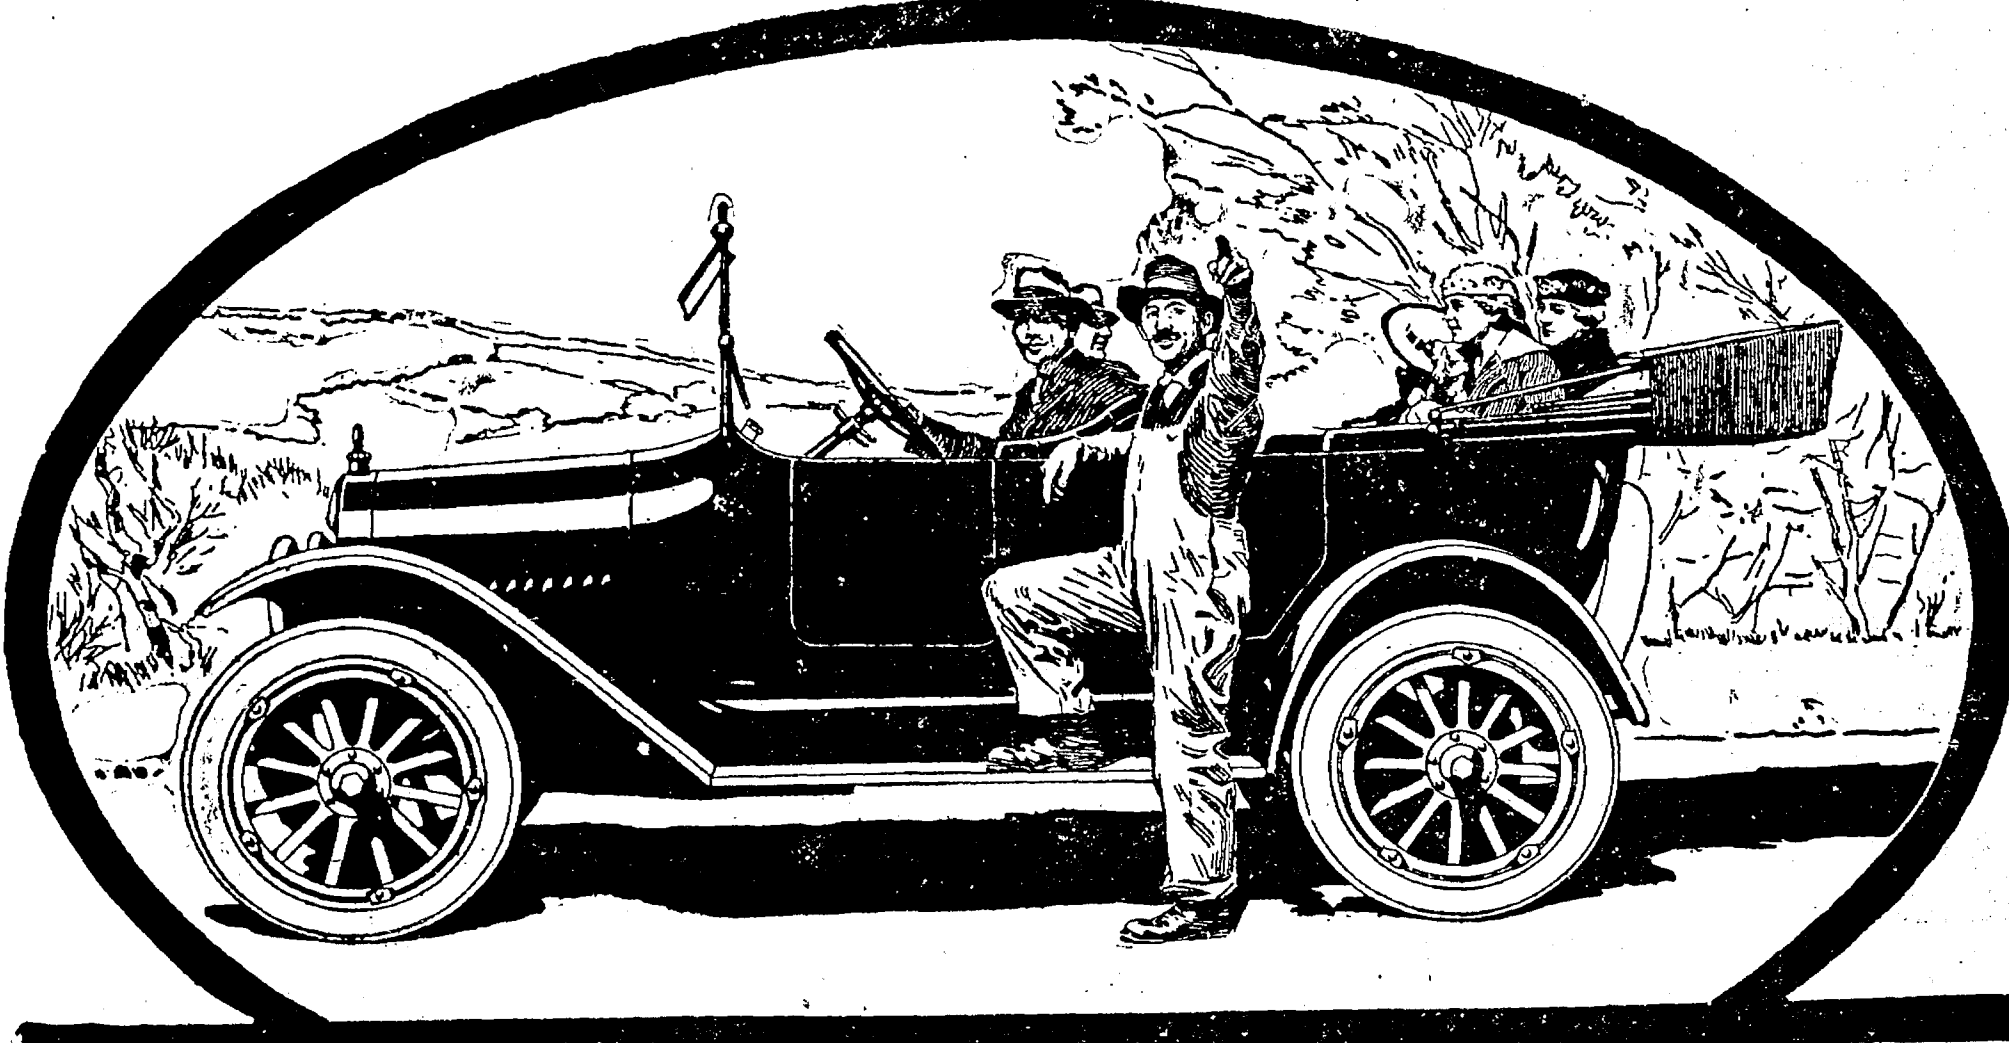

SACRAMENTO, April 25.—Governor Stephens has signed the San Francisco-San Mateo consolidation act, which provides for the holding of elections in two counties looking toward annexation of San Mateo county to San Francisco. The act provides that consolidation election shall not be held until after the people have ratified the borough amendment.

To Avoid Dandruff

You do not want a slow treatment for itching scalp when hair is falling and the dandruff germ is killing the hair roots. Delay means—no hair.

Get at any drug store, a bottle of zemo for 25c or \$1.00 for extra large size. Use as directed, for it does the work quickly. It kills the dandruff germ, nourishes the hair roots and immediately stops itching scalp. It is a pure, reliable, antiseptic liquid. It is not greasy, is easy to use and will not stain. Soaps and shampoos are harmful, as they contain alkali. The best thing to use for scalp irritation is zemo, for it is safe and inexpensive.

The E. W. Rose Co., Cleveland, O.

Act Now if You Want This Famous Automobile at the Present Price

At Midnight April 30 the Present Low Price on the World's Record Non-Stop Champion Car Goes up to \$665

Quick action will save you money on the price of your Maxwell—until May 1st the price remains at \$635.

High grade steel and other raw materials used in the Maxwell have been steadily costing the Maxwell Company more and more until at last the factory reluctantly has been forced to increase the price in order to maintain Maxwell quality.

For it is the fixed policy of the Maxwell Company never, by even a hair's breadth, to change the sterling quality of the materials, parts, accessories, and refinements of the Maxwell car—except, if it were possible, to change for the better.

The present low price of the Maxwell has been the wonder of the automobile industry.

The amazing thing is—even before the cost of the best automobile materials began going up by leaps and bounds—how the Maxwell was built to sell for so little as it has.

Of course the reasons are:

- a magnificent factory organization of men and machinery, the result of many years of experience and development,
- and a vast quantity production, now at the rate of over 100,000 cars yearly.

Maxwell Leadership Unchallenged

In the Maxwell you have an automobile which, for results, is the equivalent of far higher priced cars.

Here is a car made of the very finest materials,

- with all of the accessories and refinements of costlier cars,
- with all of the comforts and luxuries that you expect to pay a great deal more for,
- with the famous record-making Maxwell motor that has power and speed to spare,
- with an economy of gasoline consumption that is more than amazing,
- all these master qualities in the Maxwell at a price which is within the reach of every family.

Master Motor of the Maxwell Car

The marvelous Maxwell engine has earned for the Maxwell car its enviable reputation for fuel economy,

- this notwithstanding the fact that it has as much, or more, power than the majority of much heavier and costlier cars.

1 1/2 Cents A Mile

One example of Maxwell fuel economy is the recent trip made by Prof. (Mrs.) Miriam Seeley of the Oregon Agricultural College, from Portland to Boston and back to Portland, a distance of 9,700 miles.

—and this racking tour over mountains and under every road condition was made at the amazingly low running cost of 1 1/2c per mile for gasoline and repairs.

—far lower than the rate per mile for passenger railway travel.

This is but one example among thousands which are on record in the Maxwell factory office.

Amazing Maxwell Endurance

Never before has any other automobile than the Maxwell accomplished such a marvelous feat of endurance as this World's Record.

A five-passenger Maxwell stock touring car was run 22,022 miles under the auspices of the American Automobile Association without a motor stop or a stop for any repairs.

This in itself is an amazing thing,

- but on top of that, this car, under the most trying circumstances of the endurance test, averaged 22 miles per gallon of gasoline.

Think that over—and what it means to you in running cost.

Act Now If You Want A Maxwell

We offer you at this present amazingly low price—\$635—a car which is a marvel of endurance and economy.

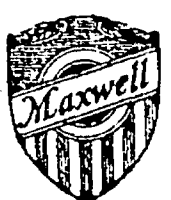

Bear in mind that our April allotment of Maxwells is nearly all sold.

And the price on our April allotment only is the old price, \$635,

—on and after May 1st we cannot sell a Maxwell for one cent under \$665.

The difference will go a long way toward paying for your summer vacation in a Maxwell.

Come in quick and get any form of demonstration you want.

CITY MISSES REVENUE; DOG CENSUS STARTS

There is a dog census in progress in Oakland. They will all be listed, classified, given an address, a regular home number and a sponsor, or else—the poundman will get them if they don't watch out.

Revenues from the taxation of the canine population, have fallen off, the reports show. Deputies of the Society for the Prevention of Cruelty to Animals are now busy accumulating statistics. The society has charge of the city pound, but the revenues of the licenses are collected by the city. From now on every dog must wear a tag. The ordinances will be enforced strictly by the police department and the only thing that will keep "bitch" from the clutches of the poundman if he does not display a number is the front yard fence, behind which he may bark the Monroe Doctrine of dogdom.

NAME DELEGATES

RICHMOND, April 25. — Teachers and officers of the First Presbyterian church held their monthly conference last night at the church, following a supper served by a committee composed of Mrs. J. H. Plate, Mrs. W. M. Bullock, Mrs. Carl Alexander, Mrs. William Patterson and Mrs. Harold Patterson. Mrs. A. H. Ponge, Mrs. Carl Alexander and Mrs. William Patterson were elected delegates to the state Sunday school convention which will meet in Oakland in May. Miss Octavia Norton will represent the school at the county convention in Concord next Saturday.

It was decided to have the annual Children's Day program on Sunday, June 3. An interesting program will be prepared for the service.

DOCK & DECK

The new five masted schooner Flagstaff, the largest wooden schooner built in Oakland harbor, is now completed at Haulon's shipyard, and was turned over to her owners, the Western Nut Co. today.

She was launched without a name, but was christened as hull No. 16. Before she was completed, the vessel was sold to Norwegians and the government forbids American bottoms to be transferred to foreign owners, so the sale hung fire, until today when it was announced that the craft was not to change her flag, so the original name Flagstaff was given her, and her new owners will take her away. She will be ready to load for her first trip, within a few days.

On Sunday next the new steam schooner Florence Olson will leave the Union Iron Works, Oakland harbor, for her official trial trip around the bay and a short cruise outside the Golden Gate. She was built at Coos Bay and towed here, where her machinery was installed. The Olson is owned by Oliver J. Olson and will carry over 1,000,000 feet of lumber between Oakland and northern ports. She will be ready for active service within the next few weeks.

When the steamer Adeline Smith sailed from Oakland on her last voyage she had aboard as passengers the captain, officers and crew of the new steamer Johanna Smith, which was launched at Coos Bay a few weeks ago for the C. S. Smith Co. of Oakland. The new craft is loading lumber at the Smith's mill there, and will be towed to Oakland where her boilers and engines will be installed. After her lumber is out, she will run between Oakland and Coos Bay.

BARK IS READY FOR LONG JOURNEY

The bark McLaurin of L. A. Pedersen Co. is ready for her long journey to Alaska, as her crew of Mexicans arrived in port today, and were taken from the steamer by a launch and placed aboard the bark. She has been loaded for some days, but the fishermen who intended to sail on her wanted more money, the owners sent south for the new crew. There are about seventy-five men in the gang and they will spend the summer in Alaska, packing salmon.

Motor schooner Angel is almost ready to start for her home in Mexican waters, when the gas engine company at East Oakland is through putting in the machinery. The Angel was built in the north, and was towed to Oakland, with a cargo of lumber. She will load general merchandise for the south, before sailing. The new craft is 294 tons register.

Schooner Albion which was lately purchased by Lorned Manufacturing Co. of Los Angeles, is almost ready to leave East Oakland for her official trial trip. She has been equipped with gasoline engines and when accepted will load a cargo for the south, where she will remain. The new owners have not stated what trade they intend to place the vessel in. For many years she was in the coastwise lumber trade under sail, and was a frequent visitor to Oakland.

Captain Hogan and Captain Anderson were up before the United States inspectors of hulls and boilers to explain the cause of their steamer coming together a few nights ago, in San Francisco bay. Hogan is master of the Southern Pacific ferry steamer Newark and Anderson is master of the steam schooner Westerner, and both masters reside in Alameda county. The case is under advisement, and the inspectors will render their decision within a few days.

The British cable ship Restorer, which was moored at one of the city buoys at Seattle harbor since the beginning of the European war, has been taken to Bremerton navy yard today, as an attempt has been made a few nights ago to cut the vessel adrift. No one has been blamed for it as yet but the government is investigating. She is owned by the Pacific Cable Co.

OLD BARKENTINE IS LEFT IN ESTUARY

The old barkentine Westler is the only sailing craft which is left in East Oakland, waiting for some one to get her out of the way. Several mariners have been looking over the old craft, in hopes of placing her in seaworthy condition.

The steamer Islander has been purchased on Puget Sound by Mexican parties and Captain Capling has left here to take command of her. He will bring the craft to Oakland where she will be converted into an oil burner, and will run between California, ports and Mexico. She was built at Puget Sound twelve years ago and is 162 tons register, 72 feet long, 18 feet beam and 9 feet depth of hold.

Within the next few days the power schooners Chetco, Albion, Angel and Marfan will leave Oakland harbor for their new home ports.

The British steamer Prince Rupert, which ran ashore at Glenn Island, British Columbia, on March 23, was placed on the drydock at Esquimalt today where it was found that about fifty new plates will have to be put in her bottom which were damaged by striking the rocks.

Collector of Customs John O. Davis today ordered a bid on the rental of a gasoline launch, which will carry thirty passengers or over to be used as a boarding-vessel for the custom house officers.

The interned German bark Ottawa, which was seized by the United States government, has been towed to Oakland harbor and placed alongside the Union Iron Works wharf. She will go on the drydock to be cleaned and painted, as she has not been on the drydock since she arrived here, August 21, 1914. She will be used as a transport for the United States government.

A change of masters at the United States custom house: Captain O. H. Haulon, steamer Yungward; Captain M. Downey, steamer Sen Rover; Captain John McKeon, gas launch Crowley No. 25; Captain R. T. Summers, gas schooner Marfan.

WILL AID FARMS

CHICAGO, April 25.—A plan to place the high school boys of 228 cities on farms this summer was launched by officers of the Chicago Rotary Club. Under the plan announced each Rotary Club would finance a central bureau to put youths on nearby farms.

ELLIOTT QUILTS

NEW YORK, April 25. — At a meeting here of the board of directors of the New York, New Haven & Hartford railroad, the resignation of Howard Elliott as president to take effect May 1 was accepted.

SONGS WANTED

NEW YORK, April 25. — Writers of patriotic songs in New York are being called to the colors and medals are being offered for the most inspiring lyric, set to music, that will assist in street corner mobilization.

Several days ago Elliott, in a statement, intimated he intended retiring in order to give more of his time and assistance to the National Council of Defense. F. J. Penrose, vice-president of the company, and Elliott's assistant in charge of general construction operation and maintenance, was elected president to succeed him.

ROYAL CORD

Why the United States Royal Cord Tire Is the Monarch of All Cord Tires

There's a reason for all things,
—and there's a very big reason why the 'Royal Cord' Tire is the "Monarch of All Cord Tires":

- the 'Royal Cord' is the tire of supreme resiliency and elasticity;
- the 'Royal Cord' is the tire of rugged endurance and toughness;
- the 'Royal Cord' is the tire of masterful anti-skid service and amazing long mileage;
- the 'Royal Cord' is the tire of beauty and distinction.

Other motorists have tried the 'Royal Cord' and know why it is the "Monarch of All Cord Tires."

Try 'Royal Cords' and learn how good a cord tire can be.

The 'Royal Cord' Tire is one of the five United States Tires that are making such phenomenal sales increases.

United States Tires Are Good Tires

BUILDING LAW CHANGES TO BE OFFERED

Drastic revisions in present building laws have been prepared by the building law committee of the Oakland Chamber of Commerce. They will be presented to the city council for approval, probably tomorrow morning, at which time official consideration will be given to the revised provisions.

The committee has been at work on the subject for the past year and in that time has held more than sixty conferences, representing the best efforts of lawyers, bankers, real estate and business men in all walks of life. No change has been made in the present fire limits, but other changes are as follows:

The class A and B fire zone is abolished; class C buildings to be permitted anywhere within fire limits, but divided into two classes—class C-1 with height limit of 35 feet and class C-2 with height limit of 60 feet for metal laths and 45 feet if wood. The height of all buildings is limited to 160 feet or one and one-half times the width of the street, with additional allowance for towers. Brick and tile wall specifications are altered to permit their use for home construction.

The committee intends to present an additional ordinance at a later date covering all special buildings, such as theaters, hospitals, schools, garages and the like. The substitute ordinance to be presented tomorrow was prepared after a careful study of the building regulations of most of the large cities of the United States.

Stars of Film World Appear in Local Houses

YOUTH IS SHOT

Lloyd Pantages, 10-year-old son of the vaudeville magnate of the Pacific coast, is blinded in the right eye today, shot with an air rifle in the hands of other boys playing "war" in Seattle, Wash.

SEEKS ORDER TO FORCE ELECTION

With the refusal of the city council to place the initiative ordinance proposed by the "Liquor Survey Board" to substitute present regulations on the ballot at the May 8 election for the reason that the city clerk Cummings is unable to certify its sufficiency in time, mandamus proceedings have been commenced in the Superior Court to force the issue.

A writ was filed late yesterday by A. A. Anderson, president of the organization which drew up the ordinance and obtained the signatures seeking to have it placed before the voters for adoption. Superior Judge William H. Donahue issued an alternative writ of mandamus made returnable next Friday morning at 10 o'clock. The writ is directed against the members of the council and the city clerk, who have been directed to either place the measure on the ballot or show legal reason for not doing so.

In refusing to accede to the request of the proponents of the ordinance, the council acted upon advice from City Attorney Paul C. Mott, who held that as the city clerk had been unable to complete the verification of the signatures and certify the result to the council within the time prescribed prior to the election, the order would have to go over until the next general election. A special election could be called if the necessary 15 per cent of signatures be obtained.

The complainants in the action claim that although the petition was presented late the city clerk should have acknowledged the verification in time by adding extra force in his office if necessary.

The order for the ballots for the May 8 election has gone to the printer and in event that the Superior Court issues a mandate that the measure be placed on the ballot it will be necessary to make considerable change in the procedure if there be sufficient time remaining.

Clerk Cummings explained that he was unable to act upon the petition after it was filed late because the precinct registration books had been distributed for the primary election, thus preventing him from working with them.

WILL USE LINERS

WASHINGTON, April 25.—Twelve of the interned German liners seized by the United States when war was declared will be ready for use within a week, the shipping board announced this afternoon. Seven of these ships are at New York, the others on the Pacific Coast. Three of the New York

ships will be used as naval training ships. The others probably will be used in the trans-Atlantic trade.

The Vaterland, biggest of the interned German liners, probably will be towed to Balboa to be drydocked and scrapped. The government drydock there is the only one on the western continent big enough to receive a liner of the Vaterland's proportions.

Mary Pickford's Masterpiece

Eastern Press Exultant Over "Little" Mary's Masterful Handling of the Difficult Role of the Money-Oppressed Youthful Heiress in Eleanor Gates' Dramatic Protest, "A Poor Little Rich Girl," at the New T. & D.

She's here—this Star of old and young, with her smiles and curls, everlastingly more and more the heroine of old, despite the rich surroundings in which she is cast in this latest of her original productions. She has won her way into the hearts of millions and she will win her way into yours. She will be at the New T. & D., Eleventh at Broadway, from today until Saturday.

On the same program, Sesue Hayawaka, the great Japanese actor in "The Bottle Imp," making this a double bill of powerful magnetism.

The NEW EDISON

THE INSTRUMENT OF MUSIC'S RE-CREATION is the only instrument that actually re-creates music so literally that there is no difference between the original and the re-creation.

BALLOONIST'S WIFE FLEES FROM HOME

The rocky matrimonial road over which Edward and Vera Unger, balloonists and parachute jumpers, have traveled together from time to time grew rougher than ever yesterday when it became known that the wife and two children had fled from their southern California home in Villa City, near Los Angeles, with Unger appealing to the police of the tourist city, Venice and Sacramento for aid. Mrs. Unger, according to the husband, is in Sacramento.

Unger, who lived for many years in Oakland, secured a divorce one year ago from his wife, according to his statement to the southern police, but took her back recently for the sake of their children. He was given custody of the two children and he makes the claim that Mrs. Unger came back to him so that she might obtain the children.

K. OF C. TO ENROLL

A large class of candidates will be enrolled into the ranks of Oakland Council No. 784, Knights of Columbus, tonight. The work will be conferred on the council chambers on Thirteenth street, Grand Knight Dr. J. F. Slavich presiding. The major degrees will be conferred Sunday afternoon in San Francisco, starting at 2 o'clock.

A complimentary dance will be given in the Knights of Columbus hall, under the auspices of the entertainment committee of the order. Music will be furnished by McNamara's orchestra.

ROBBED ON TRAIN

SAN DIEGO, April 25.—Arrests are expected today in the attempted murder case on the Santa Fe "Owl" yesterday, when Joseph H. Harden, capitalist, was attacked by a robber or robbers, his throat cut and his bankroll taken. Local police have several clues, which they hope will lead to definite results today.

WILL OPEN OFFICE

Commissioner W. H. Edwards, of the Revenue and Finance Department, announces that the office of the City Tax Collector will remain open until 9 p. m. all this week, to accommodate the taxpayers who are unable to call during the day. City taxes become delinquent Monday, April 30, 6 p. m.

City Tax Collector W. M. Fitzmaurice suggested that all those who intend paying their taxes by check at the office can save themselves an unnecessary delay if they mail their bills, together with check, and receipts will be sent by return mail.

Do You Wear Artificial Teeth?

Eight years ago a method was discovered, inserting natural looking teeth without using a clumsy plate, running over the entire roof of the mouth, interfering with your taste and speech.

This is the invention of J. B. Schaffert, D. D. S., Room 9 Macdonough Building, 1322 Broadway, corner 14th. Phone Lakeside 24.

Many thousands are wearing them with wonderful success and would not go back to the old style. A book is free with many prominent names of people who will back up this statement, or if you desire a talk upon this subject it will cost you nothing, in any event it will pay you to investigate.—Advertisement.

Chamberlain's Cough Remedy Highly Recommended

"I'm thoroughly convinced that if Chamberlain's Cough Remedy is given a fair trial it will cure the most severe cold. I cannot speak too highly of it. It always cures and is pleasant to take."

Writes Mrs. Charles Saxby, Litchfield, Ill. For sale by Osgood Bros. Drug Stores.—Advertisement.

The Weather

FORECAST TILL 5 P. M. THURSDAY. Oakland and vicinity, Sacramento, San Joaquin, Santa Clara valleys and Southern California—Fair tonight and Thursday; light west wind.

Northern California—Fair tonight and Thursday, except probably showers on the extreme north coast, moderate westerly winds.

Nevada—Fair tonight and Thursday.

WEATHER CONDITIONS. Cloudy weather, with light rain, prevailing over the northern portion of the Pacific slope and Rocky Mountain region and fair weather over the southern portion. The depression over Kansas toward Wisconsin, causing rain in the upper Mississippi valley and Lake region. In other sections east of the Rockies, the weather is fair. It is warmer in the Plateau and cooler in the Rocky Mountain region. In California the temperature is generally above the normal. Conditions are favorable for fair weather in this district, except showers on the extreme north coast.

SOUTHERN PACIFIC COMPANY

PACIFIC SYSTEM

TICKET OFFICE Broadway and 13th Streets

Oakland, April 25.

Mr. and Mrs. Goodpeople,
Home Sweet Home.

Dear Sir and Madam:

I take pleasure in announcing that our 1917 Summer Excursion Tickets will be on sale April 27 and thereafter, for the great annual Out-Pouring to Sea Shore, Mountains, Lakes and Streams.

The witchery of the Great Out-of-Doors will soon lure you; entice you from business and domestic routine to the wild grandeur that hems in the sparkling lakes of the High Sierras, or to some favorite haunt among the wooded hills or sunlit vales that slope to the sandy beaches of our "Sunset Sea."

The sportsman of the family is beckoned to some choice fishing grounds amidst the glorious wilderness of pine, fir, juniper and laurel that clothe in multi-tinted verdure the picturesque canyons of our foaming streams.

No apology nor special justification is required for a summer Outing. No need to nurse up a Wheezy little Cough or to pose as either Over-Worked or Run-Down, as though an Auto had gone over you. Even very healthy persons are benefitted by a holiday.

The youngsters are wild for it. The ladies have been "shopping ahead." Shirt waists, short skirts, khaki suits, bloomers and heavy shoes for mountain-climbing, and other garments feminine are ready-to-wear! Some trunks are packed now!

"Where to Go?" Just ask for our folders on Yosemite, the Tahoe Country, Big Trees, High Sierras, Crater Lake or Apache Trail; also Huntington Lake and California Out-of-Doors, soon going to press. Get copies also of our "Side Trips Along Sunset Route," along "Ogden Route" and "Shasta Route." They tell of scores of delightful places on and off our main line. Ask too for "Trips Around San Francisco." It will make you want to get better acquainted with our "City by the Golden Gate," and the charming places roundabout.

Remember I am here to aid you in your Get-Away.

Respectfully yours,
C. J. MALLEY
C. T. Agt.

L. RICHARDSON,
D. F. & P. Agt.

RESOURCES OF COUNTY DELVED INTO

HAYWARD, April 25.—Alameda county is a "little paradise" from the point of view of horticulture and agriculture, with intensive farming getting the most from the soil for the most part, although larger forage crops can and must be secured. This was brought out at a meeting of the 300 farmers held here yesterday at the call of the committee on resources and food supply of the California Council for Defense for the purpose of having farmers co-operate with the government in raising larger crops.

Agricultural and horticultural experts outlined local and national crop conditions and needs. Larger forage crops including sorghums are the special need of Alameda county. It was pointed out. This season, for instance, only 25 per cent crop of hay will be secured in the Midway sections, one of the largest forage crops growing districts and about a 50 per cent crop in the Alameda section. Pasture on the hills of Alameda county is only 40 per cent of the full yield.

Under intensive cultivation and producing good yields on the average in this county are alfalfa, corn, tomatoes, sugar beets, and other crops. In the home garden, vegetables, and strawberries. Grapes are a month late in budding on account of the cold weather earlier in the season.

BUSINESS GIRLS LIKE CUTICURA

Because it keeps the hands soft and white, the complexion fresh and clear and the hair live and glossy. CUTICURA soap cleanses, purifies and beautifies, the Ointment soothes and heals.

Sun, wind and dust all do their best to ruin the complexions of those subjected to them. Business girls who must face all kinds of weather find that Cuticura does much to protect their skins and keep them looking their best. Sample each free. Address postcard: "Cuticura," Dept. 13F, Boston. Sold everywhere.

NOTICE OF SPECIAL MEETING OF STOCKHOLDERS AND OF INTENTION.

NOTICE IS HEREBY GIVEN that a special meeting of the stockholders of THE OAKLAND BANK OF SAVINGS, a corporation, will be held on Monday, the 28th day of May, 1917, at 3:30 o'clock p. m. of that day, at the office and bank of THE OAKLAND BANK OF SAVINGS, at the corner of Broadway and 15th Street, in the City of Oakland, California, for the purpose of considering and acting upon a resolution of said corporation, which said resolution is as follows: "Encourage the cultivation of vacant land in town and country and the farmers to increase their crop acreage as much as possible without sacrificing the grass lands required for stock."

In a message to the people of the state Governor Capper declared, "It's the biggest part Kansas can play in the war, and the state must not fall down on the job. Kansas must furnish its proportion of men at the front and there must not be a single shirker in the state for the work at home. The fellow who goes to the front must be the only one to fight for his country."

FOOD PRODUCTION

STOCKTON, April 25.—Methods for increasing food production in California will be discussed Friday at the annual convention of the California Development Board here. Representatives from all the principal cities of the state will attend. Fifty young men will come by special boat from San Francisco. Experts in close touch with the various activities to avert a food shortage will speak.

DISCUSS WASTE

WASHINGTON, April 25.—Back yard and school garden canning and elimination of waste were questions for discussion by the Woman's National Farm and Garden Association when it opened a three-day meeting here. Mrs. Lansing, Mrs. Barker and Mrs. Houston, wives of the secretaries of state, war and agriculture, respectively, were to act as chairmen of sessions.

COUNTIES TO AID

SACRAMENTO, April 25.—Five more counties today notified the State Council of Defense that county defense councils have been formed, the five being San Mateo, Inyo, Placer, Sierra and Tehama. All pledge complete co-operation with the State Council, particularly in helping to solve the food problem. Only eighteen other counties in the State remain unheard from.

FLORIDA MAY BE AID FOR BIG POTATO FAMINE

WASHINGTON, April 25.—Shortage of the 1916 potato crop may be relieved by rapidly increasing shipments of new potatoes from Florida the past week, the Federal Bureau of Markets reported today. Between April 1 and 20 5072 cars of the old and new crop moved and the daily shipments of the new potatoes have jumped from the usual fifteen or twenty cars to fifty-three cars April 18, seventy-three on the 19th and ninety-six on the 20th.

FEAR U. S. MAY CUT SUPPLIES TO NEUTRALS

WASHINGTON, April 25.—European neutrals are thoroughly alarmed over the possibility of this government curtailing food exports to prevent their eventual delivery into Germany, it was disclosed here today. Plainly agitated, Dr. Paul Ritter, Swiss minister here, called at the State Department requesting an audience with President Wilson that he might personally lay before the executive the plight in which his country would be placed by an embargo. It was reported that envoys of the Scandinavian countries will follow a similar course.

When it comes to food price fixings as suggested by the administration to conserve supplies during the war period, Congress will be locked in "the hardest-fought battle of the war," unless present signs are wrong. A clear-cut in-group between members of rural communities and members from the large cities is rapidly developing. It is merely an outcropping of the old feud between city and country—between farmer folk and city folk, producer and consumer. The signs have begun to show themselves in the hearings before the Senate agricultural committee on the various plans for food conservation and production.

To combat the demand for legislation authorizing the fixing of maximum food prices during the war period, rural United States has now come forward with a proposal for measures empowering the government to establish minimum prices. The fact that spring planting is at hand is acting as a drastic accelerator of Congressional action in dealing with the food problem.

The Senate committee expects to close its hearings within several days and begin work on retouching administrative food measures which will be laid before it by Secretary of Agriculture Houston. These measures probably will be ready for introduction some time next week in the Senate.

CAMPUS USED FOR POTATO GROWING

TOPEKA, Kan., April 25.—Kansas that block of the United States which Easterners have declared could not be prouder—has answered today Governor Capper's call for action to feed the United States and her allies.

A commission has been appointed to help with the work and a thorough and vigorous campaign will be made at once to cultivate every waste place in the state.

The campuses of the three big state schools at Manhattan, Emporia and Lawrence, will be turned into potato fields. The Kansas State Agricultural College and the Department of Agriculture have "enlisted" in the work which promises "more crops grown in Kansas than any previous year."

The banker who refuses to finance the seeding and growing of potatoes is "as liberal as prudence will allow" will be branded by the governor as a "black-or," according to a letter to the bankers of the state urging their co-operation. "The time is short and the need is urgent," the appeal to the bankers stated. "Encourage the cultivation of vacant land in town and country and the farmers to increase their crop acreage as much as possible without sacrificing the grass lands required for stock."

In a message to the people of the state Governor Capper declared, "It's the biggest part Kansas can play in the war, and the state must not fall down on the job. Kansas must furnish its proportion of men at the front and there must not be a single shirker in the state for the work at home. The fellow who goes to the front must be the only one to fight for his country."

All pledge complete co-operation with the State Council, particularly in helping to solve the food problem. Only eighteen other counties in the State remain unheard from.

BARS AIGRETTES

SACRAMENTO, April 25.—Possession of cigarette feathers or plumes after November 1, 1917, is made a misdemeanor if possession is for the purpose of sale, under the provisions of a bill by Baldwin of San Diego, which was given approval last night by the Senate. The bill was introduced at the request of United States District Attorney John W. Preston of San Francisco with the view of discouraging the smuggling of plumes and feathers. The federal law already prohibits their importation, but many find their way into California and are sold. The bill now goes to the Governor.

EUGENIC BILL LOST

SACRAMENTO, April 25.—By a vote of 15 to 16 the Senate last night rejected Assemblyman Wishard's so-called eugenic marriage bill, aimed to prohibit the marriage of persons afflicted with sexual diseases or leprosy. Applicants for marriage licenses, under the bill would have been required to submit health certificates showing their freedom of the prohibited diseases. Luce of San Diego, who championed the bill, moved for reconsideration and announced he would call up the bill again tomorrow. Bookbinding at THE TRIBUNE Office.

PREDICT CHANCES

LONDON, April 25.—At a conference of journalists representing the European neutral countries consideration was given to the effect of the Russian revolution. One speaker expressed the belief that republics would be established before the end of the war in Sweden, Greece and Spain.

WEDNESDAY, APRIL 25, 1917.

FRANCE AND AMERICA.

The safe arrival in the United States of the French commission was announced yesterday. The British commissioners reached Washington Monday morning. Today begin a series of conferences which will be recorded in history as marks of the most important period in the life of the American republic. Out of these conferences will grow concrete plans for the direction of American participation in the world war. There should be no prejudice against recognizing the fact that the United States has actively entered upon a concert of effort with Great Britain, France, Italy and the smaller entente powers. It is a necessary step in our defense.

On the contrary, it is a source of gratification that the government has had the vision to recognize the necessity of cooperation at this time with foreign governments to safeguard human liberty and all the other high ideals which distinguish civilization from the barbaric eras that we erroneously believed had passed forever. Peculiar sentimental reasons exist for welcoming the revived partnership between the United States and France.

It puts the people of this country in the position to pay the debt which they owe, which their fathers owed, to the people of France. It is to France that America is indebted for the victorious struggle for independence 140 years ago. In these times of mammoth undertakings and tremendous instrumentalities some may be apt to lose sight of the extent and value of French aid during the Revolution. But in those critical days the money they gave us and the men they sent to fight our battles were as important as anything America can now do to help France. The financial aid secured from France and the armies and navies commanded by Rochambeau, Lafayette, D'Estang and De Grasse converted defeat into victory.

Americans have already done much for France in the present war. Some 50,000 young men of this country are with the French forces on the western battle front, serving with the foreign legion, the air corps and in the regular French organizations. But they have gone to France as individuals and volunteers to express in a substantial way their love for the people and the land of France and their gratitude to the French nation for helping to carve out a democracy on the American continent. America is proud of the heroism of these men who sprang to the side of France when the days were darkest and the future uncertain. California is well represented among these volunteers. Besides the many individual combatants, Stanford University already has established an ambulance corps, and is this week to despatch another unit, while the University of California is also sending two volunteer units.

Now the nation is to do something in the name of all the people. It is to furnish money, food and munitions and, as soon as possible, will send an army to fight for liberty and future peace on the soil of France. We did not seek this privilege, but now that it has been forced upon us, we may well be proud that the motives are pure and the partnership congenial. It seems to have been the destiny of these two countries to join their forces and keep the fires of human liberty and welfare burning brightly. They have ever been an irresistible force in the past and so will continue in the future. When France came to the aid of the colonies she was free of any motives of aggrandizement or self gain. Fortunately, and this is one of the brightest phases of the war, America goes to the aid of France without a single wish to benefit herself materially—only to preserve honor, truth, law and the right to live and work out one's destiny in freedom from predatory and swashbuckling neighbors.

Warmth of human sympathy and the indestructible sentiments of the brotherhood of man will be the result of the visit of the French commission, and that spirit will see to it that the best and ultimate of genius, resources and effective service for the great cause which the two nations have in common will result from the conferences to be held with the American government.

One of the men who has come to the front in the present national emergency is President Wilbur of Stanford University. His expressions have been uniform in practical sense, in pressing home the patriotic duty of American citizens, in presenting it as a very serious thing, yet as one not to be evaded or dreaded. There is something in his personality and utterances that is reminiscent of Thomas Starr King in another great crisis. Dr. Wilbur has impressed himself not only upon Cali-

fornia, but upon the whole country. That he is taken account of nationally is manifest in the invitation that has been extended him to take part in the great non-partisan mass meeting to be held at Chicago Saturday night. Among other national characters who will participate is former President Roosevelt. President Wilbur will be introduced by a cabinet minister. California will be honored in its representation on this occasion.

FEDERAL LAND GRANTS.

In a decision handed down a few days ago, the United States Supreme Court has settled some long standing contentions with reference to the administration of federal land grants to aid in the construction of railroads and the development of sustaining traffic. It ruled that the Southern Pacific railroad in Oregon and Washington had, through violation of the terms of the grant, forfeited its title to nearly 2,300,000 acres of land, the total value of which is approximately \$30,000,000.

The terms of the original grant to the railroad provided that the land should be sold to settlers at not more than \$2.50 per acre. The doctrine underlying the grant of these lands was that the railroad should be assisted in building up a territory of productive colonists. It was the method by which the government benevolently entered into partnership with the railroad builders to open up new and undeveloped territory. It was presumed that the lands were only to be used or disposed of by the railroad for agricultural purposes. The railroads, however, very early in their period of control, violated the spirit and letter of the land act and, as shown in the testimony introduced at the court trial, violated for forty years the price restriction. Some of the land it refused to sell at all and other tracts were disposed of at many times the authorized sale price. The reasons for this were that in some localities the values of agricultural land greatly increased and the railroad company ventured to realize the market quotations; in other cases it disposed of the land as timber areas and as mineral land. The case against the railroad was quite complete.

The Oregon case was started over five years ago under the personal direction of Hon. B. D. Townsend, who also was connected with the Alaska coal land fraud cases and the earlier suits to recover mineral lands from the Southern Pacific in California. He conducted the government's suit until a favorable verdict was handed down in the trial court. The case is now finally disposed of and the land is under government control again and available for redistribution for bona fide development. It probably will take several years before private effort accomplishes what the railroads were expected to aid in doing. The railroad company has, of course, blundered in its policy of dealing with the federal land grants. It has preferred to be landlord of unproductive areas and to hold the land until surrounding development induced an increase in value. Had the company proceeded in good faith to promote agricultural and industrial development of the areas it held in trust, its revenues would have been vastly augmented from the increased volume of traffic. Now it is divested of its ownership of valuable lands—agricultural, mineral and timber-bearing—and must wait upon private efforts to convert them into a productive traffic zone.

Patrick Cahill of Wheeling, West Virginia, has been attending funerals for recreation for the last quarter century and claims to have been present at more than 7000 burials. He says he never misses a funeral because he hasn't anything else to do but attend them. When a person has nothing else to do but to attend funerals, society will not miss him when his presence is withdrawn.

THE ROMANCE OF SHEEP.

The eternal drama of man is the story of sheep. It is a human story. Dull and characterless—if we except the wild Rocky Mountain sheep and the magnificent ovine bolt of the Asiatlo highlands, named for Marco Polo—the sheep himself is neither an heroic nor a romantic figure. A dog may become a hero, but a sheep remains a sheep to the end of his days. "The 'orse he knows above a bit," according to Kipling, and "the elephant's a gentleman," but the sheep is only a leg o' mutton and a handful of wool. When all is said and done, however, civilized men can do without dogs, they can do without elephants and horses, but they can't well do without sheep.

Nerves tingle at the romantic story of humanity's struggles to maintain itself in comfort. But it is not all a pretty tale. Tragedy often bares her face. Sheep are one of the things for which men fight and struggle and intrigue, and that is why there is a story to weave around them. A king pays a monarch's ransom that a few sheep may be smuggled out of their native country into his own. Shepherds watch by their flocks at night, enduring deadly silence and cold and solitude. Men are shot into the red country of Australia where a living area may be 20,000 acres, and settlers can see each other's homesteads only through the telescope. There they fight fire and flood and drought in turn. And perish—many of them. All because sheep thrive there. Beautiful as the sword of Old England, the country becomes another Sahara under the blighting drought. Grass withers away, trees are killed, birds drop dead. Drifting sands form hills that hide from sight pitiful groups of huddled dead sheep—and perhaps their shepherd. And when the drought is not on the land, grass may give and there is a frantic rush to the coast, like that of a beaten and pursued army, to the next pasture. That pasture may be a thousand miles away. Sheep drop by hundreds in the mad scramble. Ten thousand of them died in one flock in 1907. Facing such obstacles, sheep growers have made Australia the greatest wool country in the world. Men as well as mutton and wool are being produced.

All of the romances and tragedy are not confined to far-away places. The United States has a story as deadly and dramatic as any. Cattle men and sheep men fought in the West, fought with fists and knives and bullets, with cunning and villainy, fought like men in the open and like assassins in the dark. There were "dead lines" beyond which a sheep man and his flocks dared not go. But sometimes one did dare. Maybe there was an open encounter, maybe a single shot in the night. The sheep man had been eliminated. The score, however, did not always stand like that, nor did the attack always come from the cattlemen.

Those days are passed, sheep and cattle graze side by side, sheep men and cattle men no longer kill each other. Had not those days been shortened, no sheep would have been spared, but for the sake of humanity they were spared. All traces of "dead lines" have, however, not been obliterated. There are still places where sheep men do not go.—From the Nation's Business.

NOTES and COMMENT

President Wilson's message doesn't seem to get to the German populace in its full integrity, and the plan of dropping it over the country from airplanes has been adopted. It is a straightforward document, and everybody should have untrammelled opportunity to judge it on its merits.

The hero of Vimy Ridge is thought to be a Texan. Since the days of the Alamo Texans have been very much on hand where there was fighting going on.

The particulars as to the conservation of food, prepared by the State Council of Defense and sent to 40,000 members of women's clubs, is effort in the right direction, whether supplies get short or not. It will have a tendency to correct the carelessness that prevails in every household.

It was something of a give-away when the janitor of the Woman's Athletic Club of San Francisco was arrested and a part of the loot found to consist of bottles of wine.

Among other horrors that this war and its literature are developing is the acrobatic. But the world is becoming hardened to such things.

The proposed estuary bridge is beginning to assume status. It is now fervently hoped there will no official obstacle to overcome. The material ones are going to be considerable.

The San Leandro Reporter celebrates: "The Reporter with this issue enters upon the fortieth consecutive year of publication. For over 2000 weeks the Reporter has been a consistent and persistent booster of San Leandro, its advantages, its industries and its surrounding territory, and much, very much, of the growth and development of the town is due to the free and widespread publicity given it by this paper."

The account says that the Senate has passed a bill which provides that Chinese eggs "more than thirty-one days in transit shall be stamped 'storage' in letters one-half inch high." Some job to thus decorate every egg.

The Council of Defense has intimated that San Francisco should send 50,000 soldiers to the front and 200,000 to the farms. This wouldn't leave the full able-bodied quota to tell how the work and fighting ought to be done.

Uncensored item from the San Jose Mercury: "A man was asked yesterday why his wife never attended the Chamber of Commerce luncheon. He laughed as he answered, 'For the same reason that nobody else's wife does. Women can't bear to spend four-bits for a luncheon. They think of all the other things they might get for the money.'"

The man whose horse ate dynamite and died from the effects wants \$100 under the Compensation Act. The horse was assisting at Hetch Hetchy, which is public work, and didn't distinguish between the explosive and oats. Which seems to be a challenge as to that saying about horse sense.

It was told with great particularity how August Hoeptner walked into the surgeon and died from the effects, that, shot himself, and then how he walked into the morgue where his body lay and protested that the account was not in every particular correct.

SPIRIT OF THE STATE PRESS

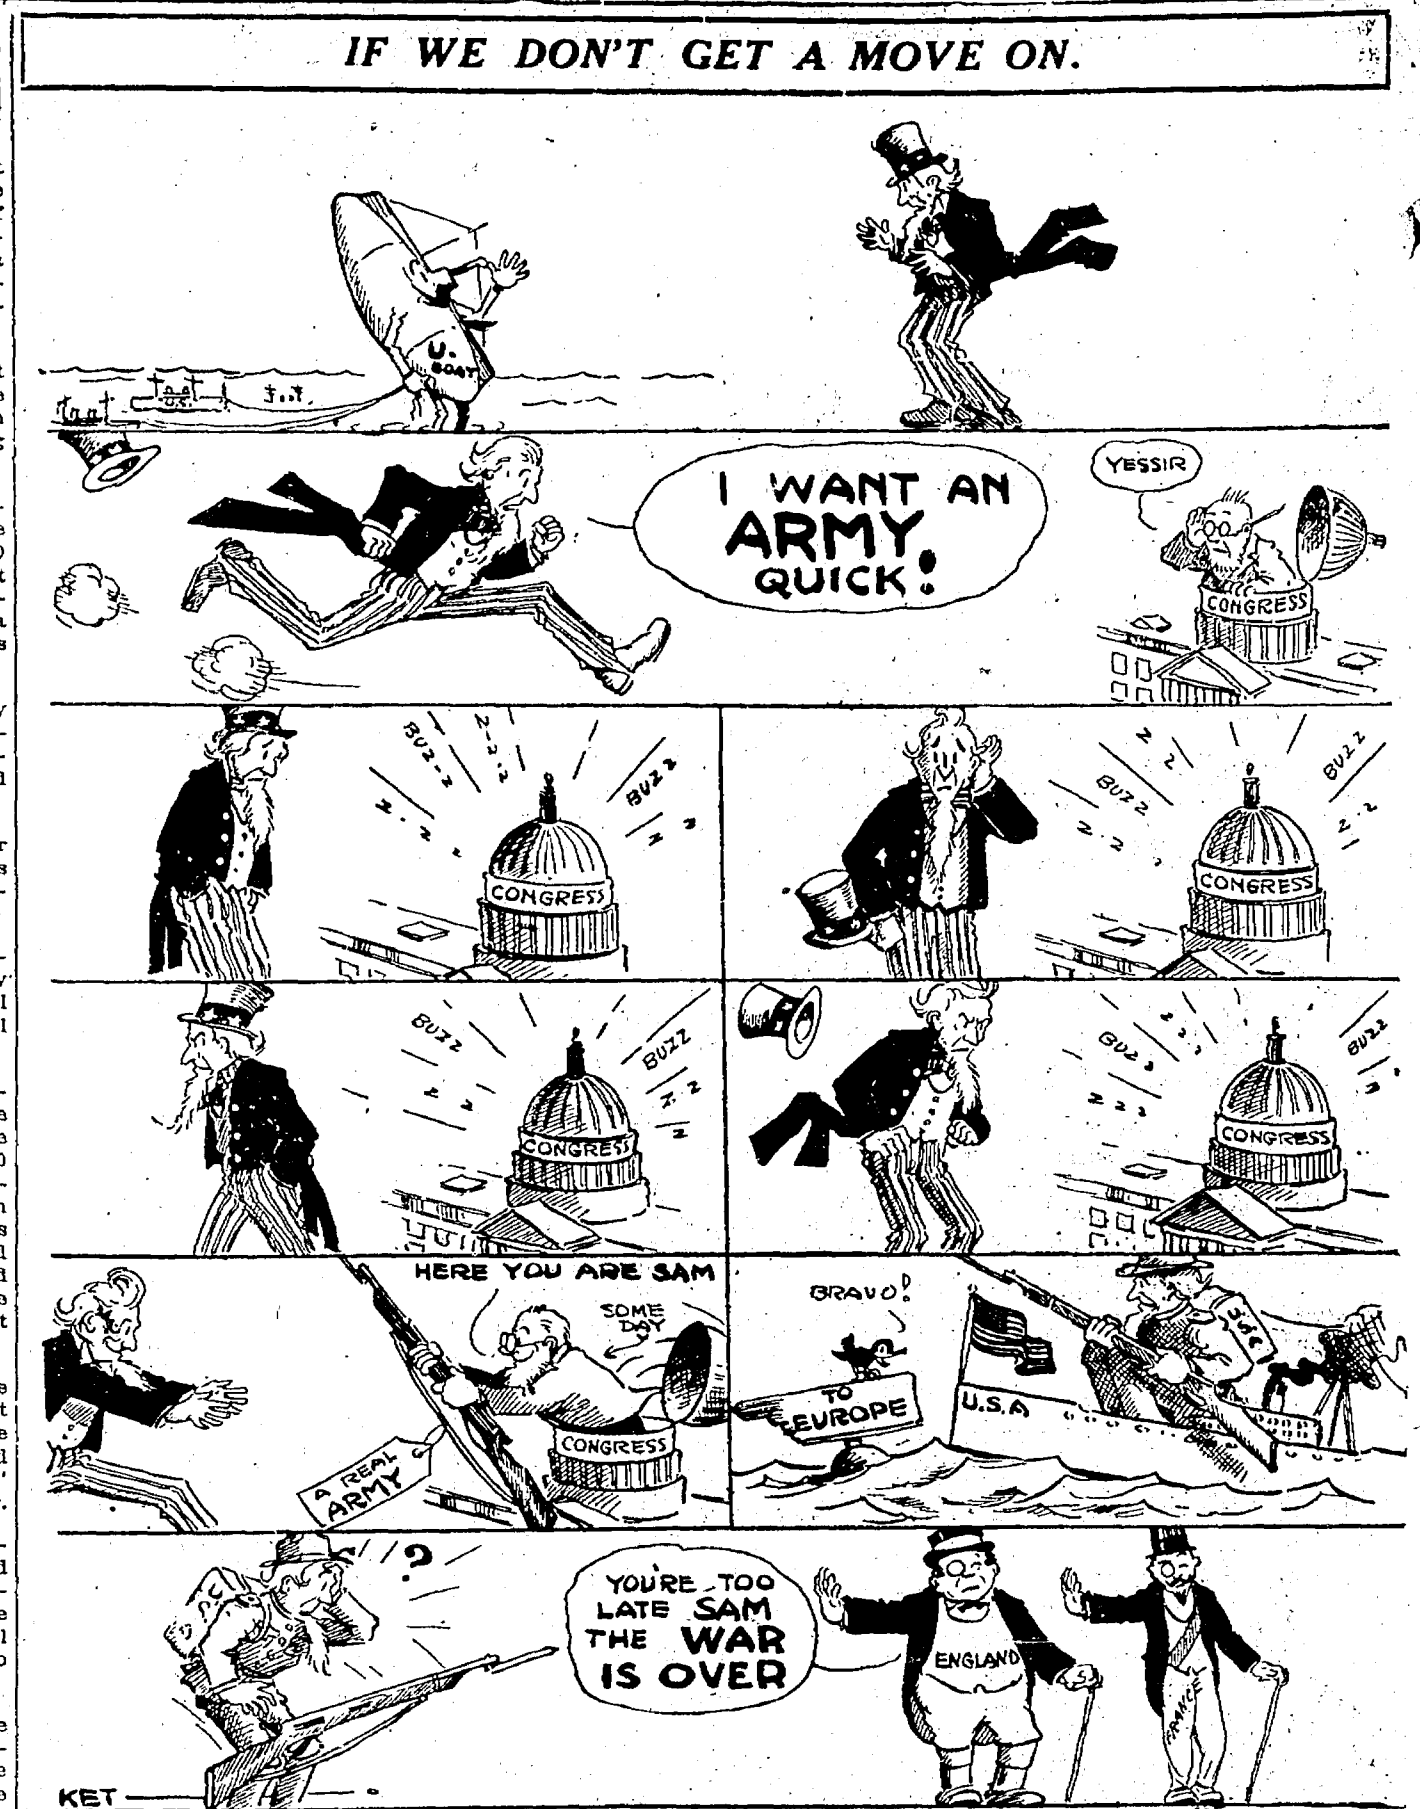

Squire Noah Totten of the Campo neighborhood has been devoting his spare time to a study of prices in the long ago. He has rediscovered the fact that during the reign of Henry IV of England a good egg cost 7 cents, not a pound, but the whole bird. He has further ascertained that 15 pounds of butter could be had for 25 cents, and that wine cost 5 cents a quart, and that a whole carcass of beef could be obtained for \$7.50.—San Diego Union.

Secretary of State Frank Jordan took members of the Legislature up to his place at Auburn and gave them a grand day's outing Sunday. The program included a trip by special train to the site of the Mountain Quarry Company, one of the greatest lime producers on the coast. A state dinner with a bull's head as "piece de resistance" was served. The invitation cards read: "You are cordially invited to attend a stag banquet and week-end party in honor of Frank M. Hauser of Los Angeles as a guest of Frank Jordan, at Banana Ranch, Auburn, Placer county, Cal., April 21 and 22, 1917."—Sacramento News.

The Red Bluff News asks and answers as follows: "Here is the answer to the question: 'How can we run the county business on one-sixty-five?' We can't." Perhaps the News can't, but we'd like to inquire if there are not people in Tehama county who might be able to at least try.—Corning Observer.

One of the curious anomalies of war, if we finally come to a formal break with Turkey, will be the fact that every unnaturalized Armenian in Fresno will be listed as technically an "alien enemy," while most of the Germans in Fresno, having been born in Russian territory, will be classed with our allies. Of course, the fact is that there are no more loyal Americans than the Armenians, even those who are not yet citizens, and that it would not strain their emotions in the least if America were in the bitterest possible war with their native country of Turkey, while our German Russians think more of America than of either Russia or Germany.—Fresno Republican.

H. H. Dunning, president of the Marysville Chamber of Commerce, and a prominent business man of that city, is going to make Holsteins his hobby. Markofer & Latta sold him a young registered Holstein bull, for which they received \$300. This bull calf is not yet 4 months old, and at birth weighed 117 pounds, at one month 200 pounds, at two months 203 pounds and at three months 415 pounds.—Elk Grove Citizen.

THE JESTER

Prussianism.
"This dog took first prize at the cat show."
"How's that?"
"Well, he took the cat."—Cassell's Journal.

Eye-ball or Highball.
An old Scotsman was threatened with blindness if he did not give up drinking. "Now, McTavish," said the doctor, "it's like this: You've either to stop the whisky or lose your eyesight, and you must choose."
"Ay, weel, doctor," said McTavish, "I'm an auld man, noo, an' I was thinkin' I hae seen about everything worth seein'."—The Bits.

Ambitious.
Clerk—Let me show you our latest machines. We have a motor car now that can climb any hill on earth.
Chauffeur—That's nothing. The last one you sold me tried to climb a tree.—Topeka State Journal.

Anything Possible.
"Come, come," said the impatient conductor to the man who was searching his pockets, "you couldn't have lost your ticket, you know."
"Couldn't, eh?" said the passenger. "I lost a bass-drum once."—Everybody's Magazine.

TODAY 20 YEARS AGO

Special services were held at the First Congregational Church in honor of the twenty-fifth anniversary of Dr. J. K. McLean's ministry in Oakland. The West Oakland Improvement Club held a celebration when a flag presented to the city was raised for the first time over the West Oakland marsh, which with contemplated improvements, will soon be a thing of the past.

Of the new rules to govern the Fire Department passed by the Commissioners, one prohibited firemen from entering saloons while on duty, and another denied them the privilege of keeping liquor in their houses.

Mrs. J. H. Partington and her daughter, Miss Gertrude Partington, a clever artist, were visitors at Monterey.

PORTO RICO FRUIT.

More than 500,000 packages of fruit, chiefly pineapples, will be shipped from Porto Rico before July 1, according to estimates prepared by the Porto Rico Fruit Growers and Shippers' League. The other principal fruits for export are grapefruit and oranges.

WHERE WILL PRONNY GO?
King Alfonso has been balancing himself painfully on the neutral fence. Now it looks as if the fence was about to be pulled out from under him.—Cleveland Plain Dealer.

FIRST LOSS FOR CLOTHIERS

OAKLAND FIRES HIT HARD

The Bank of Superior Service

Wholesome Food

Did you ever consider what a difference there is in biscuits, cake, muffins, etc., made with Royal Baking Powder and those made with cheaper baking powders containing alum or phosphate?

Royal Baking Powder is made with Cream of Tartar derived from grapes, a delicious, healthful fruit and that is why it produces food of superior texture, wholesomeness and keeping quality.

Alum and phosphate are derived from mineral acids, and the only reason for using such substitutes for Cream of Tartar is because their cost is very much less to the manufacturer.

Remember this when buying baking powder and be guided by the label on the can, which gives the names of all the ingredients.

GROUND IS BROKEN FOR BIG CANNERY

CENTERVILLE, April 25.—Ground was broken yesterday for the building of the F. B. Booth cannery, which is to be erected on a site of five acres owned by the company here. The property is situated on the main railroad line so that cars may be run on sidings alongside the buildings for loading and unloading.

The main building, a portion of which will consist of two stories, will be 355 feet long and sixty feet wide and will be provided with cold storage facilities. More than 300,000 feet of lumber will be required in its construction. The cold storage warehouse will occupy about 600 feet of space. The buildings will be high, well ventilated and well lighted, and will be equipped with every modern sanitary device and convenience. A well bored more than 100 feet deep will furnish the building with the pure.

fresh water for which the wells of the Centerville district are famous. Other wells will be bored as the needs of the cannery plant increase and the supply of water will be inexhaustible. The buildings are to be erected by F. A. Long & Son. The machinery will be installed by the Premier Machinery Co. of San Francisco and will be of the most approved modern type. Work will be rushed to completion, and it is expected the buildings will be ready for occupancy in about a month. They will not be completed in time for this year's fruit crops, but will be available for that purpose next year. This year they will be devoted to canning tomatoes, tomato catsup and tomato paste. The company also owns plants at Monterey and Pittsburg.

F. Hawes, postmaster at Centerville, was largely responsible in inducing the concern to locate here.

WHEAT SETS MARK

CHICAGO, April 25.—Wheat shot past all previous high records today on a market bare of offerings. May wheat rose 7½ cents, as compared with yesterday's close, to \$2.48; July, 7½ cents to \$2.13½, and September, 7½ cents to \$1.89. Traders were somewhat impressed by a prediction credited to the minister of agriculture of Ontario that wheat would sell at \$4 before it sold again at \$2. Corn prices rose 2½ cents to 3½ cents.

SALESMAN ARMY

MINNEAPOLIS, April 25.—Three thousand salesmen are preaching bigger crops to the farmers of the Northwest today. Resolved to take every possible step to spur the thousands of farmers in the vast Northwest to produce the maximum crop, all salesmen with headquarters in Minneapolis are talking big acreage and bigger crops everywhere they go. Many deal directly with farmers and will carry

U. S. FRIENDLY, SAYS FLETCHER

MEXICO CITY, April 25.—United States Ambassador Fletcher issued a statement to the Mexican press in which he declared that the relations between Mexico and the United States were increasingly cordial and that any misunderstanding would be due to the activities of enemies of both countries. The text of the statement follows:

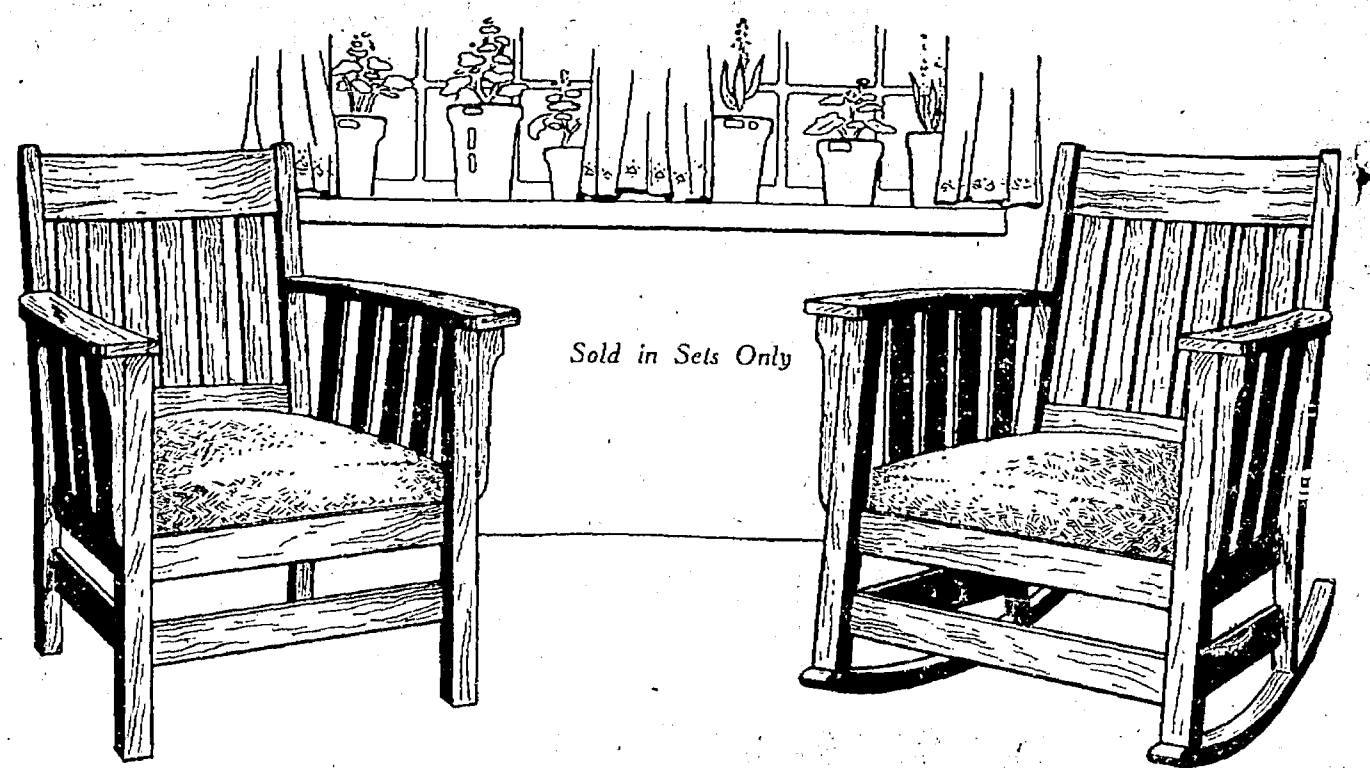

"I do not believe that any difficulty may be expected between the United States and Mexico as the result of the entrance of the United States into the war. My government is perfectly satisfied with the declaration of neutrality of Mexico made by the President on April 15, and is confident that Mexico, as a sovereign people, will respect the same, taking measures for its strict observance. "No pressure has been exercised by the United States on Mexico or on any neutral country to force its entrance into the war on the side of the United States. The relations between the United States and Mexico each day grow more cordial and friendly, and I sincerely hope there will be no occurrence to affect the good and complete understanding between the two great democracies of America. By situation we are neighbors and by communion of ends, aspirations and feelings we should be friends. If Mexico anything occurs compromising her neutrality or involving in difficulties the two nations it will be the result of the efforts of enemies of or other of the countries of both."

U. S. ATTITUDE.
"The government of the United States desires nothing except prosperity for this country and wishes nothing which disturbs the establishment of free, constitutional and orderly government and the peace of the country and promotion of prosperity. The United States, in spite of vehement desires and sincere efforts to remain aloof from the great conflict, has been forced to take up arms, and I sincerely hope that Mexico will be more fortunate than us in this respect."

"Americans in Mexico, conscious of the hospitality of this country, both in their official acts and private life, will abstain from any act which might compromise the neutrality of Mexico or place this government in an embarrassing position."

TO PRINT STATEMENT.
The statement will be printed in all Mexico City papers tomorrow. It was issued as the result of newspaper reports from the United States which gave alarming reports of the suspension there in regard to Mexico's position. Ambassador Fletcher will make the same statement to General Carranza tomorrow, if he has the opportunity.

Rafael Martinez, editor of El Demócrata, a strongly pro-German organ, was confirmed as a member of Congress after a long discussion in the chamber today. He was opposed by Dr. Atl, leader of the Mexican labor party. It has been openly charged in El Nacional that El Demócrata received money regularly from the German legation and was paid an increased rate for advertisement by German merchants.

Sold in Sets Only

Living room chair and rocker

In Solid Quarter-Sawn Oak, Properly Fumed; Full Box Seats—Upholstered in "Spanish Imperial"—A Substitute for Leather

A Fireside Chair and Rocker that will not need to be replaced for many years—quality goods at an unusually low price. The set is as illustrated and is of the best and most rigid construction—well-seasoned quarter-sawn oak throughout—properly fumed and finished. Upholstered with "Spanish Imperial," a substitute for leather—full box spring seats—steel coils supported by steel bands. Large, roomy, comfortable chairs, that you must see to properly appreciate their true big value—and one of the most popular styles.

Where Are Those Ford Size GOODRICH BLACK SAFETY TREAD TIRES

We Called Back?

"Bring back any Goodrich Black Safety Tread Tires you feel have not given you the right service." Thus ran our 1917 message to the world.

If there were such tires we wanted them back and we said so as emphatically as we could say it—particularly to the owners of Ford automobiles.

From the thousands of Ford Size Goodrich Tires sold we had a right to expect a certain number of tires to come back.

Our tires have come back—loaded with a surprise. Read this letter from your town that came with a Ford Size Goodrich Tire sent back:

Berkeley, Cal., Nov. 9, 1916.
The B. F. Goodrich Rubber Co.,
Oakland, Cal.

Having used Goodrich tires since 1907, I can cheerfully recommend them from personal experience. The tire being turned in has given between 6,000 and 7,000 miles and still has a good deal of service left in it. I have tried other makes from time to time, but invariably have returned to Goodrich.

Very truly, yours,
R. L. ADAMS,
University of California.

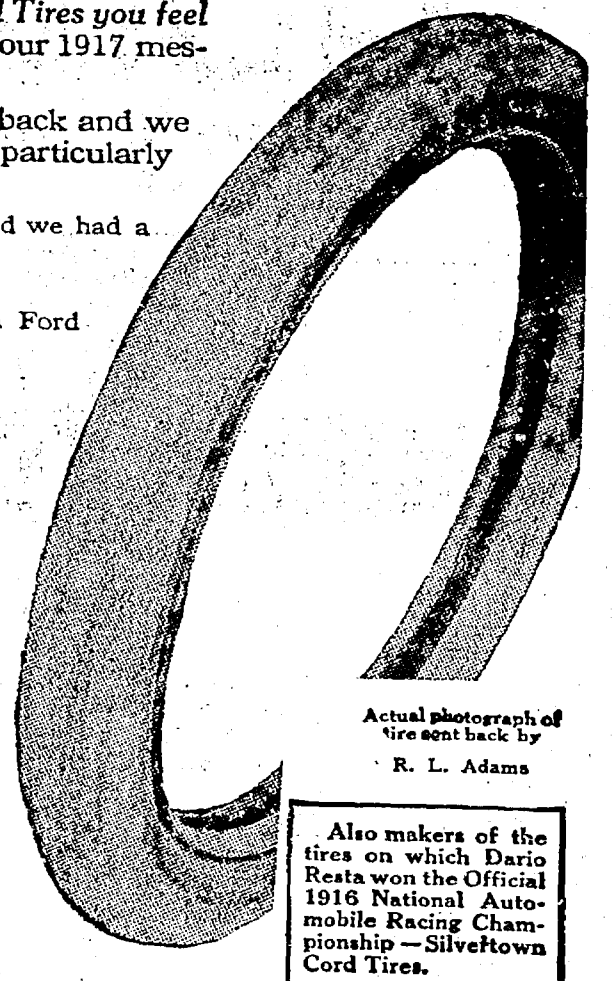

Where You See This Sign Goodrich Tires are Stocked

Ask Your Dealer for Them

Comfort, safety and durability you are sure to get for your Ford car if you demand Goodrich Black Safety Treads of your dealer.

SHINOLA being made of the best wax and oils, it is to the life of leather as paint is to buildings.

Apply SHINOLA often because it protects the leather. If your shoes are worn, make second application.

The Key on each box for opening gives an added service, no broken nails or soiled fingers.

SHINOLA can be used with any cloth or brush. For greater convenience, buy

SHINOLA HOME SET

To make SHINOLA service more complete, SHINOLA Home Sets are placed with dealers to be sold at practically the cost of production.

SHINOLA Home Set is ideal for gift or prize. Should be in every home, club or automobile.

Accept no substitute, every package bears SHINOLA label.

Oscar Saenger

Vocal Training Course
In 10 Victor Records

\$25

This remarkable course was prepared at great expense by the Victor Talking Machine Co. To the student it will be of great assistance in practice work. Teachers will find the course a valuable adjunct to their vocal lessons, because of this aid to the pupils in their practice work. There are individual sets of records for Soprano, Mezzo-Soprano, Tenor, Baritone and Bass. We have inaugurated a Special Saenger Record Course Department, in charge of a Demonstrator who thoroughly understands the Saenger System. We will gladly demonstrate the Saenger Victor Records to students and teachers, without charge or obligation.
